P-HF876	Akrapović Sound Kit	Optional part	W/O Approval	The optional Akrapović Sound Kit enables owners of selected Akrapović car exhausts to control the sound of the system from the cockpit of their machine. Using Akrapović technology, drivers can easily switch between the quiet mode and a sportier sound. With the use of a receiver to drive the actuators that open or close the valves at the end of the exhaust system, drivers can use the Sound Remote Controller or the new smartphone app (for iOS and Android) to regulate the valves.	Car	Hot Hatch	Abarth	500/595	2008	2017	602.36	EUR
TP-T/S/2	Tail pipe set (Titanium)	Optional part		The tailpipes are the most visible part of the exhaust system, and that's why we dedicate particular attention to them at Akrapović. In order to satisfy the most discriminating tastes, we've created special titanium-alloy tailpipes. To make our tailpipes stand out from the rest even more, in addition to selecting the finest materials, we also made them larger.	Car	Hot Hatch	Abarth	500/595	2008	2017	602.12	EUR
TP-CS/1	Tail pipe set (Carbon)	Optional part		The tailpipes are the most visible part of the exhaust system, and that's why we dedicate particular attention to them at Akrapović. In order to satisfy the most discriminating tastes, we've created handcrafted carbon-fibre tailpipes. To make our tailpipes stand out from the rest even more, in addition to selecting the finest materials, we also made them larger.	Car	Hot Hatch	Abarth	500/595	2008	2017	602.12	EUR
M-FVSS/1H	Slip-On Line (SS)	Slip-On	EC Type Approval	Add a stainless steel Slip-On exhaust system and make the Abarth (1.4 16V T Jet) even faster, even more responsive, and give it an even more striking look and that unmistakable sporty Akrapović sound. The biggest difference compared to stock is most noticeable when the optional Akrapović sound kit for adjustable sound is used. When the exhaust valve is open, the sound becomes significantly deeper and tastefully louder, but still entirely without droning. Performance facts apply to the performance exhaust with the Akrapović sound kit and open valves. The system without the Akrapović sound kit has a point-welded block in the link pipe that prevents bypassing the muffler. Please note: when the bypass is unblocked, the EC type approval is not valid. Complete the look with a set of exquisite 115 mm tailpipes in either titanium or carbon fibre. EC type approval is valid only for 312A1000 and 312A3000 engine type vehicle. Warning: This product will not fit on US spec Abarth.	Car	Hot Hatch	Abarth	500/595	2008	2017	728.00	EUR

Using Akrapović technology, drivers can easily switch between the quiet mode and a sportier sound. With the use of a receiver to drive the actuators that open or close the valves at the end of the exhaust system, drivers can use the Sound Remote Controller or the new smartphone app (for iOS and Android) to regulate the valves.	Car	Super Sport	Audi	R8 5.2 FSI Coupé/Spyder	2009	2015	451.78	EUR
S-AUR8S02-T	Slip-On Line (Titanium)	Slip-On		What could make a supercar even better? The answer: lower weight, more power, and an unbelievable change in engine sound thanks to this Akrapović Slip-On exhaust system. Constructed from our unique titanium alloy, our precision-engineered performance exhaust provides performance advantages over the stock exhaust and, thanks to the engine placement, weight reductions in the vehicle's rear deliver substantially improved handling. The combination of specialized muffler shapes, secondary resonators, and cast titanium dual-mode exhaust valves reduces back pressure and produces an incredible symphony from the V10 engine. Complete the look with a set of two exquisite carbon fibre tailpipes. Select the optional Akrapović sound kit for adjustable sound. Exhaust system cannot be mounted on R8 5.2 FSI Coupé/Spyder with manual transmission! THIS PRODUCT DOES NOT MEET EMISSION COMPLIANCE REQUIREMENTS FOR STREET OR HIGHWAY USE.	Car	Super Sport	Audi	R8 5.2 FSI Coupé/Spyder	2013	2015	6204.36	EUR
P-HF946	Akrapović Sound Kit	Optional part	W/O Approval	The optional Akrapović Sound Kit enables owners of selected Akrapović car exhausts to control the sound of the system from the cockpit of their machine. Using Akrapović technology, drivers can easily switch between the quiet mode and a sportier sound. With the use of a receiver to drive the actuators that open or close the valves at the end of the exhaust system, drivers can use the Sound Remote Controller or the new smartphone app (for iOS and Android) to regulate the valves. If the car is already equipped with exhaust valve button inside the cabin, sound kit is not needed.	Car	Super Sport	Audi	R8 5.2 FSI Coupé/Spyder	2016	2017	451.78	EUR
S-AUR8S03-T	Slip-On Line (Titanium)	Slip-On		The Slip-On Line exhaust system is constructed from an ultra-lightweight high-grade titanium alloy, boosting the R8's power-to-weight ratio and handling characteristics. The Slip-On Line (Titanium) has been precision engineered to improve throttle response and increase both the power and torque outputs. The performance exhaust system is designed to reduce back-pressure to almost half of the stock levels through a combination of specialized muffler shapes, secondary resonators, and titanium dual-mode exhaust valves. It is finished with two exquisitely hand-crafted carbon-fibre and titanium tailpipes that fit perfectly into the R8's stock diffuser. It is tuned to enhance the sporty note from the V10 engine while still ensuring maximum comfort and enjoyment in the car's cockpit. The tone moves from a pleasant growl at low revs to the unique Akrapović race-like sound as the revs rise and the excitement grows. The sound can be further adjusted with the addition of the optional Akrapović Sound Kit. THIS PRODUCT DOES NOT MEET EMISSION COMPLIANCE REQUIREMENTS FOR STREET OR HIGHWAY USE.	Car	Sports Coupe	Audi	R8 5.2 FSI Coupé/Spyder	2016	2017	7038.00	EUR
S-AU/T/1H	Evolution Line (Titanium)	Evolution	EC Type Approval	Audi's sports cars are the perfect partner for precision-engineered titanium alloy Evolution systems, which make these Ingolstadt machines even more attractive on all fronts. They yield more power, lower the weight, and deliver that unmistakable Akrapović sound. Its deep and resonant at lower engine revs, and sporty at higher revs. The system also generously delivers additional performance. These titanium exhaust systems with three mufflers and special parts cast at the in-house foundry feature inbuilt valves to adjust the sound. Valves are connected to the RS' standard electronics. The package is rounded off by carbon fibre and titanium tailpipes, which really stand out and display the sports spirit of the Akrapović exhaust. This is a cat-back performance exhaust system, which means that the stock catalytic converters remain in place and there's no need to remap the ECU.	Car	Sport Sedan	Audi	RS 4 Avant (B8)	2012	2015	5244.60	EUR

S-AU/TI2H	Evolution Line (Titanium)	Evolution	ECE Type Approval	Audi's sports cars are the perfect partner for precision-engineered titanium alloy Evolution systems, which make these Ingolstadt machines even more attractive on all fronts. S-AU/TI3H	Evolution Line (Titanium)	Evolution	ECE Type Approval	Audi's high-performance RS models are an ideal match for the expertly styled and beautifully engineered Akrapovič Evolution exhaust systems. The Evolution gives more power, higher torque, decreases the weight, and delivers an unmistakable Akrapovič sound—which has a deep sound at lower revs and a 'popping' sound as things speed up when the throttle is lifted. This titanium exhaust system has cast collectors and three mufflers, with the central one featuring an x-piece inside, which increase power and improve its sound. The valves of the system are designed to open and close in line with the RS' standard electronics, and the whole system has carbon-fibre tailpipes to show off the exquisite finish of the Akrapovič exhaust. Its easy-to-fit instructions are included, and with this cat-back performance exhaust system—which means that the stock catalytic converters remain in place—there's no need to remap the ECU (it's simply a plug-and-play system).	Car	Sport Sedan	Audi	RS 6 Avant (C7)	2014	2017	6938.16	EUR

Car	Sport Sedan	Audi	RS 7 Sportback (C7)	2014	2017	6938.16	EUR
DP-VW/SS3H	Downpipe / Link pipe (SS)	Optional part	ECE Type Approval	The high-flow downpipe with front link pipe is constructed using high-quality stainless steel and once fitted to Golf R / Audi S3 equipped with either standard or Akrapovič performance exhaust system, it further enhances the performance figures: both the torque and power outputs. It incorporates a catalytic converter (200 cps), ECE-compliant. This optional downpipe produces an enhanced sound that delivers a pure racing emotion and fantastic feedback at high revs, without unwanted drone, making it suitable for everyday use.	Car	Hot Hatch	Audi	S3 (8V)	2017	2017	2290.00	EUR
P-HF877	Akrapovič Sound Kit	Optional part	W/O Approval	The optional Akrapovič Sound Kit enables owners of selected Akrapovič car exhausts to control the sound of the system from the cockpit of their machine. Using Akrapovič technology, drivers can easily switch between the quiet mode and a sportier sound. With the use of a receiver to drive the actuators that open or close the valves at the end of the exhaust system, drivers can use the Sound Remote Controller or the new smartphone app (for iOS and Android) to regulate the valves.	Car	Sports Coupe	Audi	S5 Coupé (8T)	2007	2011	799.29	EUR
MTP-AUS56TH	Slip-On Line (SS)	Slip-On	ECE Type Approval	The Audi S5 with its 4.2-liter eight-cylinder engine and four-wheel drive delivers truly dynamic driving. Enhance this by adding the Akrapovič Slip-On stainless steel exhaust system to increase power, reduce weight and improve sound. This precision-made Slip-On system delivers more power, especially in the low and mid rev range, and you can take this further with the optional link pipe. The effect on the sound is significant, adding a deep resonant sporty sound without droning. Complete the look with a set of four sporty titanium tailpipes. Select the optional Akrapovič sound kit for adjustable sound. Choose the optional link pipe for even better performance, deeper sound, and weight savings up to 4 kg.	Car	Sports Coupe	Audi	S5 Coupé (8T)	2007	2011	2085.10	EUR
L-AUS8TO	Link pipe (SS)	Optional part		Slip-On exhaust system used with an optionally supplied stainless steel link pipe is a must for everyone who wants to get more enjoyment from their automobile.	Car	Sports Coupe	Audi	S5 Coupé (8T)	2007	2011	156.62	EUR
S-AU/TI6H	Evolution Line (Titanium)	Evolution	ECE Type Approval	The Audi S range of cars features high-performance V8 engines that are a perfect match for the Akrapovič Evolution exhaust systems. Styled and designed in-house by Akrapovič's engineers, the Audi S range of Evolution exhausts include valves that are steered through electric actuators designed to alter their position depending on the vehicle's driving program and the driver's style. They can also be changed in the car's individual program settings. The addition of an Evolution exhaust will increase power and torque levels, while decreasing weight and adding the unique Akrapovič sound. Evolution exhausts give the car a noticeably different character, with a deep sound at lower revs and a sportier note as the revs rise. With four, superbly styled round carbon-fibre tailpipes, the Evolution system looks as good as it works on Audi S models. This cat-back performance exhaust system leaves the stock catalytic converters in place, so there is no need to remap the ECU. Its easy-to-fit instructions make installation a simple, plug-and-play task.	Car	Sport Sedan	Audi	S6 Avant/Limousine (C7)	2013	2017	6293.09	EUR
S-AU/TI6H	Evolution Line (Titanium)	Evolution	ECE Type Approval	The Audi S range of cars features high-performance V8 engines that are a perfect match for the Akrapovič Evolution exhaust systems. P-HF878	Akrapovič Sound Kit	Optional part	W/O Approval	The optional Akrapovič Sound Kit enables owners of selected Akrapovič car exhausts to control the sound of the system from the cockpit of their machine. Using Akrapovič technology, drivers can easily switch between the quiet mode and a sportier sound. With the use of a receiver to drive the actuators that open or close the valves at the end of the exhaust system, drivers can use the Sound Remote Controller or the new smartphone app (for iOS and Android) to regulate the valves.	Car	Sports Coupe	BMW	1 Series M Coupé (E82)	2011	2012	683.45	EUR
ME-BM/T3	Evolution Line (Titanium)	Evolution		Our Evolution performance exhaust system, made of our proprietary titanium, includes a muffler, link pipes, and resonators that run from the stock down pipes back. These link pipes feature larger-than-stock-diameter tubing and cast titanium flanges. The secondary catalytic converters are removed, further decreasing back pressure and weight while at the same time deepening the exhaust tone and increasing power output. For the ultimate in weight reduction, tuning potential, and aggressive racing sound, we offer optional stainless steel catless down pipes. For hardcore enthusiasts, select the optional Akrapovič sound kit for adjustable sound. Complete the look with a set of four exquisite tailpipes in titanium or carbon fibre. When installing Akrapovič aftermarket optional down pipes with sports catalytic converters or without catalytic converters, which are developed for use on closed tracks only, remapping the ECU is mandatory. When installing Akrapovič aftermarket exhaust system that was developed for use on closed tracks, we recommend remapping the ECU in order to prevent potential 'check engine light' warning signals. THIS PRODUCT DOES NOT MEET EMISSION COMPLIANCE REQUIREMENTS FOR STREET OR HIGHWAY USE.	Car	Sports Coupe	BMW	1 Series M Coupé (E82)	2011	2012	3978.00	EUR
TP-CT/5	Tail pipe set (Carbon)	Optional part		The tailpipes are the most visible part of the exhaust system, and that's why we dedicate particular attention to them at Akrapovič. In order to satisfy the most discriminating tastes, we've created handcrafted carbon fibre tailpipes. To make our tailpipes stand out from the rest even more, in addition to selecting the finest materials, we also made them larger.	Car	Sports Coupe	BMW	1 Series M Coupé (E82)	2011	2012	1169.75	EUR

M-BM7/4H	Slip-On Line (Titanium)	Slip-On	EC Type Approval	Utilizing a single muffler arrangement, the fully titanium Akrapović Slip-On is designed to be modular. In its basic mode, all exhaust gases flow through the muffler, giving you a deeper rumble of an exhaust note compared to stock without any drone. However, the muffler system is built in such a way that by replacing a blocking plate with the optional Akrapović sound kit valve system the driver is able to noticeably increase the volume of the exhaust at the press of a button. Once activated, the majority of the exhaust gases route through the muffler bypass outlets. Even when installed on an otherwise stock vehicle, power gains are achieved and weight reduction realized. Complete the look with a set of four exquisite tailpipes in titanium or carbon fibre.	Car	Sports Coupe	BMW	1 Series M Coupé (E82)	2011	2012	1806.66	EUR
S-BME90/91/335	Evolution Line (Titanium)	Evolution		The next stage in revolutionizing the performance of the 335i, beyond the Slip-On option, is the Evolution exhaust systems. These systems, which are made entirely of stainless steel or titanium, can save 12 kg or even a full 21 kg of weight, depending on the material. That we made no compromises can be seen in additional power and torque, but it's not all about providing more peak power. There are also noticeable refinements to the entire rpm range and the power is delivered homogeneously. Reducing back pressure brings about improvements in throttle and turbine response. Evolution performance exhaust systems sound very sporty and reflect the formidable nature of the powerful six-pot engine. Complete the look with a set of two exquisite tailpipes in titanium. Warning: Cannot fit with genuine trailer tow hitch. THIS PRODUCT DOES NOT MEET EMISSION COMPLIANCE REQUIREMENTS FOR STREET OR HIGHWAY USE.	Car	Sports Coupe	BMW	335i (E90, E91)	2007	2012	4474.29	EUR
MTP-BM/SS/1H	Evolution Line (SS)	Evolution	EC Type Approval	Evolution exhaust systems for the BMW 335i are the result of the perfect integration of expertise, the best technology, and the use of the finest materials. Made of austenitic stainless steel, these systems feature a newly developed layout with two central mandatory link pipes replacing the single stock pipe, a new muffler design, and carbon fibre tailpipes. This sporty elegance makes this Bavarian machine stand out from the rest and offers the taste of a more powerful version, accentuated with the additional power gains and weight losses of the Evolution performance exhaust system. The dual-mode ECU-controlled valve exhaust from Akrapović offers stock-level sound at normal cruising, and a joyful deep sporty note when driving the 335i more dynamically. The Evolution systems replace the stock exhaust from the catalytic converters back.Mountable for:335i Limousine (F30)/335i xDrive Limousine (F30)/335i Touring (F31)/335i xDrive Touring (F31)ActiveHybrid 3	Car	Sport Sedan	BMW	335i (F30, F31)	2012	2015	2107.89	EUR
E-BM/SS/1	Evolution Link pipe set (SS)	Optional part	EC Type Approval	Made of austenitic stainless steel, these set feature a newly developed layout with two central link pipes replacing the single stock pipe.	Car	Sports Coupe	BMW	335i (F30, F31)	2012	2015	601.80	EUR

MTP-BMSS/3H	Evolution Line (SS)	Evolution	EC Type Approval	The Evolution Line system will take the BMW M140i to the next level of exhaust and performance tuning. Designed to increase power and torque while also reducing weight, this perfectly sculpted system is constructed from high-quality austenitic stainless steel and finished with hand-crafted carbon-fibre tailpipes. For the best flow of exhaust gases from the engine, the system features an arrangement of two central link pipes which replace the single stock-pipe design. Sound is enhanced through the use of a dual-mode ECU-controlled valve, which delivers a stock-level tone at normal cruising and an exciting deep sporty note as the driving gets more spirited. It is fully EC-compliant and features a simple plug-and-play installation for ease of use. Exhaust fits also on vehicles with X-drive. Please be aware that both part numbers: MTP-BMSS/3H and E-BMSS/3 have to be ordered! The system is splitted in 2 codes only because of packaging issues.	Car	Hot Hatch	BMW	M140i (F20, F21)	2016	2017	2020.21	EUR
E-BMSS/3	Evolution Link pipe set (SS)	Evolution	EC Type Approval	Made of austenitic stainless steel, these set feature a newly developed layout with two central link pipes replacing the single stock pipe. Please be aware that part numbers for evolution systems MTP-BMSS/3H (for M140i) or MTP-BMSS/4H (for M240i) have to be ordered together with E-BMSS/3. Both systems are splitted in 2 codes only because of packaging issues.	Car	Hot Hatch	BMW	M140i (F20, F21)	2016	2017	570.59	EUR
DP-BMSS/5H	Downpipe w Cat (SS)	Optional part	ECE Type Approval	The high-flow downpipe is constructed using high-quality stainless steel and, once fitted to the Evolution Line exhaust, it creates a complete system from the manifold to the tailpipes that will further enhance the performance figures: both the torque and power outputs. It incorporates a sporty catalytic converter – which is type-approved to meet ECE regulations, making the whole system ECE compliant – and so no remapping is needed for this performance upgrade. This optional downpipe produces an enhanced sound that delivers a pure racing emotion and fantastic feedback at high revs, without unwanted drone, making it suitable for everyday use. Downpipe is optional product to the following evolution systems: BMW M140i: Evolution Line (SS) - MTP-BMSS/3H + E-BMSS/3 BMW M240i: Evolution Line (SS) - MTP-BMSS/4H + E-BMSS/3 BMW 340i/440i: Evolution Line (SS) - MTP-BMSS/2H + E-BMSS/2	Car	Sports Coupe	BMW	M140i (F20, F21)	2016	2017	1469.73	EUR
DP-BMSS/4H	Downpipe w Cat (SS)	Optional part	ECE Type Approval	Made from high-quality stainless steel and fitted with a sporty catalytic converter, no remapping is needed for this performance upgrade, and the cat is type-approved to meet ECE regulations – which creates a complete exhaust system, from downpipe to tailpipes, that is fully ECE-compliant. The high-flow downpipe produces an enhanced sound that delivers a pure racing emotion and fantastic feedback at high revs, without any unwanted drone and making it suitable for everyday use.	Car	Sports Coupe	BMW	M2 (F87)	2016	2017	1479.00	EUR
DP-BMSS/4	Downpipe w/o Cat (SS)	Optional part		The next step in the exhaust-tuning process is the addition of a stainless-steel downpipe without a catalytic converter. This will provide the best sound optimisation and increase the performance of the car. Designed primarily for track use, the ECU will need to be remapped when this downpipe is fitted to the Evolution Line exhaust system. THIS PRODUCT DOES NOT MEET EMISSION COMPLIANCE REQUIREMENTS FOR STREET OR HIGHWAY USE.	Car	Sports Coupe	BMW	M2 (F87)	2016	2017	1009.80	EUR
Di-BMCA/3M	Rear Carbon fiber diffuser - Matte	Optional part	ABE Type Approval	The stunning carbon-fibre diffuser is offered as an option with the choice of a high-gloss or matt finish. It is a completely new design from the one that comes as standard on the car, and it gives the rear of the M2 a more aggressive and sporty feel. It shows off the tailpipes to their full extent and is a perfect accompaniment to the side mirror caps.	Car	Sports Coupe	BMW	M2 (F87)	2016	2017	1009.80	EUR
Di-BMCA/3G	Rear Carbon fiber diffuser - High Gloss	Optional part	ABE Type Approval	The stunning carbon-fibre diffuser is offered as an option with the choice of a high-gloss or matt finish. It is a completely new design from the one that comes as standard on the car, and it gives the rear of the M2 a more aggressive and sporty feel. It shows off the tailpipes to their full extent and is a perfect accompaniment to the side mirror caps.	Car	Sports Coupe	BMW	M2 (F87)	2016	2017	1173.00	EUR
WM-BMCA/1M	Carbon Fiber Mirror Cap Set - Matte	Other	W/O Approval	To set off the car to its visual best, these side mirror caps are available from Akrapović for the first time on any vehicle. Made from beautifully hand-crafted carbon fibre in a matt or high-gloss finish, these exquisite products are designed to emphasise the sporty lines of the M2 and complement the other external options, including the rear diffuser and tailpipes.	Car	Sports Coupe	BMW	M2 (F87)	2016	2017	450.00	EUR
WM-BMCA/1G	Carbon Fiber Mirror Cap Set - High Gloss	Other	W/O Approval	To set off the car to its visual best, these side mirror caps are available from Akrapović for the first time on any vehicle. Made from beautifully hand-crafted carbon fibre in a matt or high-gloss finish, these exquisite products are designed to emphasise the sporty lines of the M2 and complement the other external options, including the rear diffuser and tailpipes.	Car	Sports Coupe	BMW	M2 (F87)	2016	2017	550.00	EUR
P-PHF977	Akrapović Sound Kit	Optional part	W/O Approval	The sound of the superb Evolution Line (Titanium) exhaust system can be further controlled by adding the optional Akrapović Sound Kit. This easy-to-install option makes possible louder or quieter settings of the Evolution Line. It has a special program for valve management (in quiet and loud mode) that is different from the stock version and controls the valves according to rpm, gear, and car mode.	Car	Sports Coupe	BMW	M2 (F87)	2016	2017	493.15	EUR
ME-BM7/8H	Evolution Line (Titanium)	Evolution	ECE Type Approval	Made from ultra-lightweight high-grade titanium, which will lower the overall weight of the car and improve handling. This perfectly finished ECE-approved system has been tuned to get the most from the TwinPower Turbo six-cylinder engine of the M2 and is designed to deliver more power all the way across the rev range. This new system features two separate tubes from the downpipe to the muffler – unlike the car's original single-tube configuration. It is perfectly routed and shaped to provide optimum gas flow from the M2's stunning engine and deliver a noticeable performance increase. The sound has also been enhanced by Akrapović's engineers: the unique external sound is higher in pitch, giving a true racing feel in the upper rpm range. The Evolution Line is perfect for everyday use, with low-rpm driving smooth and refined, but still showing the true potential of the system – and, when higher revs are hit and the valves are permanently open, the sound has an addictive racing tone. A simple plug-and-play system offers a superb addition to improve the performance of the BMW M2. Carbon-fibre tailpipes give an added look to the rear of the M2, to display its sporting potential. Performance can be further increased with the addition of the optional downpipes, which can be purchased with or without cats. To set off the system to its visual best, optional parts are also available.	Car	Sports Coupe	BMW	M2 (F87)	2016	2017	5089.80	EUR
DP-BMSS/5H	Downpipe w Cat (SS)	Optional part	ECE Type Approval	The high-flow downpipe is constructed using high-quality stainless steel and, once fitted to the Evolution Line exhaust, it creates a complete system from the manifold to the tailpipes that will further enhance the performance figures: both the torque and power outputs. It incorporates a sporty catalytic converter – which is type-approved to meet ECE regulations, making the whole system ECE compliant – and so no remapping is needed for this performance upgrade. This optional downpipe produces an enhanced sound that delivers a pure racing emotion and fantastic feedback at high revs, without unwanted drone, making it suitable for everyday use. Downpipe is optional product to the following evolution systems: BMW M140i: Evolution Line (SS) - MTP-BMSS/3H + E-BMSS/3 BMW M240i: Evolution Line (SS) - MTP-BMSS/4H + E-BMSS/3 BMW 340i/440i: Evolution Line (SS) - MTP-BMSS/2H + E-BMSS/2	Car	Sports Coupe	BMW	M240i (F22, F23)	2016	2017	1469.73	EUR
E-BMSS/3	Evolution Link pipe set (SS)	Evolution	EC Type Approval	Made of austenitic stainless steel, these set feature a newly developed layout with two central link pipes replacing the single stock pipe. Please be aware that part numbers for evolution systems MTP-BMSS/3H (for M140i) or MTP-BMSS/4H (for M240i) have to be ordered together with E-BMSS/3. Both systems are splitted in 2 codes only because of packaging issues.	Car	Hot Hatch	BMW	M240i (F22, F23)	2016	2017	570.59	EUR
MTP-BMSS/4H	Evolution Line (SS)	Evolution	EC Type Approval	The Evolution Line exhaust system will propel the BMW M240i to the next step of performance tuning due to an increase in torque and power. Impeccably designed to fit perfectly within the lines of the car, this austenitic stainless steel system is finished with hand-crafted carbon-fibre tailpipes to increase the visual impact. It has a layout incorporating two central link pipes to replace the stock single version, designed for optimum flow of the exhaust gases. A dual-mode ECU-controlled valve manages the sound levels, which ultimately delivers a deep and fulfilling sporty note as the revs rise. EC-compliant and easy to install, the Evolution Line system is a perfect accompaniment to an already spectacular car. Exhaust fits also on vehicles with X-drive. Please be aware that both part numbers: MTP-BMSS/4H and E-BMSS/3 have to be ordered! The system is splitted in 2 codes only because of packaging issues.	Car	Sports Coupe	BMW	M240i (F22, F23)	2016	2017	2020.21	EUR
TP-BME92H-90/93	Tail pipe set (Titanium)	Optional part		The tailpipes are the most visible part of the exhaust system, and that's why we dedicate particular attention to them at Akrapović. In order to satisfy the most discriminating tastes, we've created special titanium-alloy tailpipes. To make our tailpipes stand out from the rest even more, in addition to selecting the finest materials, we also made them larger (90mm diameter).	Car	Sports Coupe	BMW	M3 (E90)	2007	2013	1216.53	EUR

TP-CT/3	Tail pipe set (Carbon)	Optional part		The tailpipes are the most visible part of the exhaust system, and that's why we dedicate particular attention to them at Akrapović. In order to satisfy the most discriminating tastes, we've created handcrafted carbon fibre tail pipes. To make our tailpipes stand out from the rest even more, in addition to selecting the finest materials, we also made them larger (90mm diameter).	Car	Sports Coupe	BMW	M3 (E90)	2007	2013	1216.53	EUR

M-BM7/3H	Slip-On Line (Titanium)	Slip-On	EC Type Approval	For many the BMW M3 is the iconic performance car from the BMW M division. A true masterpiece in sports design. The Akrapović Slip-On exhaust system is made of our proprietary titanium and consists of completely newly developed, split-end mufflers. This system significantly reduces the overall vehicle weight and delivers extra power and a sporty sound. The power and torque increases are a joy to experience with improved agility throughout the entire rpm range. The improvement of the car's acoustics provides the perfect soundtrack: the Akrapović exhaust system amplifies and enhances the beautiful sound of the eight-cylinder motor, without any droning. Complete the look with a set of two exquisite tailpipes in titanium or carbon fibre.	Car	Sports Coupe	BMW	M3 (E92, E93)	2007	2013	2056.25	EUR
ME-BM7/2	Evolution Line (Titanium)	Evolution		The Evolution performance exhaust system for the BMW M3 consists of dual-outlet mufflers, flow-optimized link pipes, and an X-pipe that incorporates high-flow 100 cpsi sports catalytic converters and resonators. The power and torque gains of the BMW M3 with the Evolution system are just amazing. A substantial increase is detected over a very wide rpm range, and so it increases responsiveness during all phases of driving. Together with incredible weight savings, the Evolution system dramatically changes the power-to-weight ratio. Our goal was to design a system that delivers a deep, rich growl at cruising speeds while also allowing the driver to enjoy an aggressive roar when driving hard. Complete the look with a set of two exquisite tailpipes in titanium or carbon fibre. When installing Akrapović aftermarket optional down pipes with sports catalytic converters or without catalytic converters, which are developed for use on closed tracks only, remapping the ECU is mandatory. When installing Akrapović aftermarket exhaust system that was developed for use on closed tracks, we recommend remapping the ECU in order to prevent potential "check engine light" warning signals. THIS PRODUCT DOES NOT MEET EMISSION COMPLIANCE REQUIREMENTS FOR STREET OR HIGHWAY USE.	Car	Sports Coupe	BMW	M3 (E92, E93)	2007	2013	4219.47	EUR
TP-T/5/8	Tail pipe set (Titanium)	Optional part	ECE Type Approval	As the most visible part of an exhaust system, we pay the utmost attention to the tailpipes. Akrapović has created special titanium tailpipes to enrich the visual enjoyment of the Slip-On or Evolution exhaust systems. Sporting the unique Akrapović round design, the titanium version combines polished and sandblasted titanium and a bigger diameter than stock tailpipes to make them stand out from the crowd even more. The new model was unveiled with distinctive Akrapović design elements, and these beautifully crafted additions are designed to fit perfectly with the carbon- diffuser.	Car	Sports Coupe	BMW	M3 (F80)	2014	2017	1210.68	EUR
TP-CT/26	Tail pipe set (Carbon)	Optional part	ECE Type Approval	As the most visible part of an exhaust system, we pay the utmost attention to the tailpipes. Akrapović has created hand-crafted carbon-fibre tailpipes to enrich the visual enjoyment of the Slip-On or Evolution exhaust systems. Sporting the unique Akrapović round design, the carbon- version has sandblasted titanium inner parts with a bigger diameter to make them stand out from the crowd even more. The new model was unveiled with distinctive Akrapović design elements, and these beautifully crafted additions are designed to fit perfectly with the carbon- diffuser.	Car	Sports Coupe	BMW	M3 (F80)	2014	2017	1210.68	EUR
DI-BMCA/1	Rear Carbon fiber diffuser	Optional part	ABE Type Approval	The Akrapović Evolution and Slip-On line exhaust systems can be further enhanced with an optional hand-crafted carbon-fiber rear diffuser. Developed by Akrapović's Design Department, this stunning diffuser, crafted from materials developed through Akrapović's racing involvement, is designed to perfectly fit the lines of the unique tailpipes of the Slip-On or Evolution systems, as well as complement the sleek and sporty shape of the BMW. When mounting Akrapović rear carbon fiber diffuser BMW comfort access system will not work.	Car	Sports Coupe	BMW	M3 (F80)	2014	2017	948.78	EUR
DP-BM/SS/3	Downpipe (SS)	Optional part		For the ultimate in weight reduction, tuning potential, and racing sound, Akrapović offers stainless steel, cat-less downpipes to make the BMW an even more powerful machine. This setup is intended for dedicated track-day cars and enthusiasts, and it will also add to the overall experience of what's already a stunning performance car for any discerning driver. Delivering great sound, without creating unwanted cabin noise, these beautifully crafted downpipes offer an upgrade to Akrapović's Evolution exhaust system. When installing Akrapović aftermarket optional down pipes, which are developed for use on closed tracks only, remapping the ECU is mandatory, in order to prevent potential "check engine light" warning signals. THIS PRODUCT DOES NOT MEET EMISSION COMPLIANCE REQUIREMENTS FOR STREET OR HIGHWAY USE.	Car	Sports Coupe	BMW	M3 (F80)	2014	2017	1219.34	EUR
E-BM7/3	Evolution Link pipe set (Titanium)	Optional part	W/O Approval	The Evolution link pipe set upgrades the Slip-On system to the Evolution system, which consists of a single-central muffler with valves and bigger Evolution link pipe tubes with a middle muffler, all designed to make the performance and workmanship of the complete system as perfect as it looks. With no second set of cats (unlike the stock system), the whole system is designed to give the smoothest flow—and the power and torque gains of the BMW with the combination of the Slip-On Line system and Evolution link pipe set are absolutely guaranteed. Crafted entirely from titanium, the complete system has a unique sound to complement its substantial increase over a very wide rpm range. In-depth engineering has produced a sound distinctly different from the stock system, giving a deep and sporty sound with no unwanted overtones or drone, and also a significant change to the sound with the valves in the open or closed positions. The complete system needs no re-programming of the ECU because it doesn't trigger any warning lights. With tailpipes in titanium or carbon, and a handcrafted rear diffuser, all available as optional extras, the BMW with the Slip-On Line and Evolution link pipe set is as beautiful as it is powerful.	Car	Sports Coupe	BMW	M3 (F80)	2014	2017	1728.92	EUR
WM-BMCA/2/G	Carbon Fiber Mirror Cap Set - High Gloss	Other		The eye-catching hand-made carbon fibre mirror caps add a visual improvement to the stylish lines of the car. Beautifully designed and finished in either a high-gloss or matte finish, these mirror caps will enhance the car's appearance and add a perfect match for the Akrapović carbon fibre diffuser.	Car	Sports Coupe	BMW	M3 (F80)	2014	2017	630.00	EUR
DI-BMCA/4/G	Rear Carbon fiber diffuser - High Gloss	Optional part	ABE Type Approval	Beautifully crafted hand-laid high-quality carbon fibre diffusers are perfectly styled to enrich the Akrapović tailpipes and the rear of the car. The sporty and aggressive design adds an extra dimension to the whole package and shows the exhaust system off to its best. Available in high-gloss or matte finish.	Car	Sports Coupe	BMW	M3 (F80)	2014	2017	1150.00	EUR
WM-BMCA/2/M	Carbon Fiber Mirror Cap Set - Matte	Other		The eye-catching hand-made carbon fibre mirror caps add a visual improvement to the stylish lines of the car. Car	Sports Coupe	BMW	M3 (F80)	2014	2017	540.00	EUR
DI-BMCA/4/M	Rear Carbon fiber diffuser - Matte	Optional part	ABE Type Approval	Beautifully crafted hand-laid high-quality carbon fibre diffusers are perfectly styled to enrich the Akrapović tailpipes and the rear of the car. The sporty and aggressive design adds an extra dimension to the whole package and shows the exhaust system off to its best. Available in high-gloss or matte finish.	Car	Sports Coupe	BMW	M3 (F80)	2014	2017	990.00	EUR
M-BM7/8H	Slip-On Line (Titanium)	Slip-On	ECE Type Approval	The latest addition to the BMW M series is the awe-inspiring M3/M4, an exquisite high-performance car that can be made even better by adding an Akrapović Slip-On exhaust system. Made from titanium—with some parts cast in Akrapović's own foundry—it has bigger pipes than the stock exhaust, yielding lower back pressure and more power, especially at lower RPMs. This system is a completely new design, and it will reduce overall vehicle weight and deliver extra power and a sporty sound, which has been tailored to highlight lower frequencies and increase the listening enjoyment. Increases in both power and torque add to the sensory experience, combined with improved agility. The look of the Slip-On system can also be further enhanced by adding titanium or carbon- tailpipes and the stunning carbon- rear diffuser.	Car	Sports Coupe	BMW	M3 (F80)	2014	2017	2899.00	EUR

DI-BMCA/4M	Rear Carbon fiber diffuser - Matte	Optional part	ABE Type Approval	Beautifully crafted hand-laid high-quality carbon fibre diffusers are perfectly styled to enrich the Akrapović tailpipes and the rear of the car. ME-BM/T/4	Evolution Line (Titanium)	Evolution	EC Type Approval	After adding a full titanium Evolution system, you'll never want to stop driving. The exhaust system is made of our proprietary titanium and consists of dual-outlet mufflers with exhaust valves, flow-optimized pipes, and a unique cast X-shaped part with resonators. The Evolution lowers the back pressure and gives the M5 more power without removing the catalytic converters. It increases responsiveness and offers a big difference in weight. Sound is improved too, with a deep sporty sound that grows to an aggressive roar when driven hard but still has no droning. It works well with the M5's ANC system - just like the valve system, which is regulated through the M5's settings. Complete the look with a set of four exquisite tailpipes in titanium or carbon fibre.	Car	Sport Sedan	BMW	M5 (F10)	2011	2017	5572.69	EUR
TP-T/S/5	Tail pipe set (Titanium)	Optional part		The tailpipes are the most visible part of the exhaust system, and that's why we dedicate particular attention to them at Akrapović. In order to satisfy the most discriminating tastes, we've created special titanium-alloy tailpipes. To make our tailpipes stand out from the rest even more, in addition to selecting the finest materials, we also made them larger.	Car	Sport Sedan	BMW	M5 (F10)	2011	2017	1216.53	EUR
TP-CT/10	Tail pipe set (Carbon)	Optional part		The tailpipes are the most visible part of the exhaust system, and that's why we dedicate particular attention to them at Akrapović. In order to satisfy the most discriminating tastes, we've created handcrafted carbon fibre tailpipes. To make our tailpipes stand out from the rest even more, in addition to selecting the finest materials, we also made them larger.	Car	Sport Sedan	BMW	M5 (F10)	2011	2017	1239.93	EUR
TP-CT/10	Tail pipe set (Carbon)	Optional part		The tailpipes are the most visible part of the exhaust system, and that's why we dedicate particular attention to them at Akrapović. In order to satisfy the most discriminating tastes, we've created handcrafted carbon fibre tailpipes. To make our tailpipes stand out from the rest even more, in addition to selecting the finest materials, we also made them larger.	Car	Sport Sedan	BMW	M6 (F12, F13)	2012	2017	1239.93	EUR
TP-T/S/5	Tail pipe set (Titanium)	Optional part		The tailpipes are the most visible part of the exhaust system, and that's why we dedicate particular attention to them at Akrapović. In order to satisfy the most discriminating tastes, we've created special titanium-alloy tailpipes. To make our tailpipes stand out from the rest even more, in addition to selecting the finest materials, we also made them larger.	Car	Sport Sedan	BMW	M6 (F12, F13)	2012	2017	1216.53	EUR
ME-BM/T/5	Evolution Line (Titanium)	Evolution	EC Type Approval	The Evolution exhaust system made of our proprietary titanium consists of newly developed dual-outlet mufflers with exhaust valves, flow-optimized pipes, and a unique cast titanium X-shaped part with resonators. Back pressure is lowered and the M6 benefits from more power throughout the entire range of rpms. It increases responsiveness and an improved power-to-weight ratio has been achieved without removing the catalytic converters. The Evolution performance exhaust offers a deep sporty sound, growing to an aggressive roar when driven hard but without droning. It works well with the M6's ANC system - just like the valve system, which is regulated through the M6's settings. Complete the look with a set of four exquisite tailpipes in titanium or carbon fibre.	Car	Sports Coupe	BMW	M6 (F12, F13)	2012	2017	5572.69	EUR
TP-T/S/5	Tail pipe set (Titanium)	Optional part		The tailpipes are the most visible part of the exhaust system, and that's why we dedicate particular attention to them at Akrapović. In order to satisfy the most discriminating tastes, we've created special titanium-alloy tailpipes. To make our tailpipes stand out from the rest even more, in addition to selecting the finest materials, we also made them larger.	Car	Sport Sedan	BMW	M6 Gran Coupé (F06)	2013	2017	1216.53	EUR

TP-CT/10	Tail pipe set (Carbon)	Optional part		The tailpipes are the most visible part of the exhaust system, and that's why we dedicate particular attention to them at Akrapović. In order to satisfy the most discriminating tastes, we've created handcrafted carbon fibre tailpipes. To make our tailpipes stand out from the rest even more, in addition to selecting the finest materials, we also made them larger.	Car	Sport Sedan	BMW	M6 Gran Coupé (F06)	2013	2017	1239.93	EUR
ME-BMT/6H	Evolution Line (Titanium)	Evolution	EC Type Approval	The Evolution exhaust system made of our proprietary titanium consists of newly developed dual-outlet mufflers with exhaust valves, flow-optimized pipes, and a unique cast titanium X-shaped part with resonators. Back pressure is lowered and the M6 Gran Coupé benefits from more power throughout the entire range of rpms. It increases responsiveness and an improved power-to-weight ratio has been achieved without removing the catalytic converters. The Evolution performance exhaust offers a deep sporty sound, growing to an aggressive roar when driven hard but without droning. It works well with the M6 Gran Coupé's ANC system - just like the valve system, which is regulated through the M6's settings. Complete the look with a set of four exquisite tailpipes in titanium or carbon fibre.	Car	Sport Sedan	BMW	M6 Gran Coupé (F06)	2013	2017	5799.95	EUR
M-BMT/1H	Evolution Line (Titanium) X5 M	Evolution	EC Type Approval	The M division of BMW unleashed this powerful SUV and now, with an Akrapović Evolution Line exhaust system, you can experience more power, reduced weight, and a deeper sporty sound. The titanium performance exhaust includes a link pipe set with resonators, an X-pipe, and a muffler with a dual-mode exhaust flap control to reduce back pressure and enhance power delivery. The system improves power delivery, especially in the high and mid rev range. The dual-mode exhaust flap system creates a deeper but civilized sound at low revs and a sportier exhaust note at higher revs, all without droning. Complete the look with a choice of four 100 mm tailpipes in titanium or carbon fibre. Further tuning opportunities exist with our stainless steel high-flow down pipes. When installing Akrapović aftermarket optional down pipes with sports catalytic converters or without catalytic converters, which are developed for use on closed tracks only, remapping the ECU is mandatory. When installing Akrapović aftermarket exhaust system that was developed for use on closed tracks, we recommend remapping the ECU in order to prevent potential "check engine light" warning signals.	Car	Suv	BMW	X5 M (E70)	2009	2014	4397.33	EUR
TP-T/P/2	Tail pipe set (Titanium)	Optional part		The tailpipes are the most visible part of the exhaust system, and that's why we dedicate particular attention to them at Akrapović. In order to satisfy the most discriminating tastes, we've created special titanium-alloy tailpipes. To make our tailpipes stand out from the rest even more, in addition to selecting the finest materials, we also made them larger.	Car	Suv	BMW	X5 M (E70)	2009	2014	1228.46	EUR
P-HF947	Akrapović Sound Kit	Optional part	W/O Approval	This easy-to-use optional extra gives the driver the opportunity to switch between dual-mode settings for either a sporty sound between the deeper and higher frequencies, or the more regular Akrapović sound. It works by fully controlling the opening and closing of the exhaust valves simply by pushing a button on the Sound Remote Controller or via the downloadable app.	Car	Sports Coupe	BMW	X5 M (F85)	2015	2017	580.25	EUR
S-BMT/1	Evolution Line (Titanium) X5 M	Evolution	ECE Type Approval	Constructed from lightweight high-grade titanium – with complex parts made in Akrapović's in-house foundry – the Evolution Line provides a weight saving over the stock system, and increases power and torque throughout the rev range. The Evolution Line (Titanium) has been designed to meet ECE type approval as a plug-and-play system and fits directly onto the BMW X5 M's stock downpipes. It is tuned to provide a perfect balance to the car's sporty feel, and is perfectly finished with hand-crafted carbon-fibre tailpipes to offer a beautiful visual appeal. The distinctive round design tailpipes have titanium inner parts to make them stand out from the crowd even more. The tailpipes have been impeccably crafted and designed to fit seamlessly with the optional carbon-fibre diffuser. It is also available with the optional Akrapović Sound Kit.	Car	Suv	BMW	X5 M (F85)	2015	2017	5671.20	EUR
DI-BMCA/2	Rear Carbon fiber diffuser	Optional part	ABE Type Approval	The rears of the BMW X5 M (F85) and BMW X6 M (F86) can both be further enhanced by adding the optional ABE-compliant carbon-fibre diffuser. Developed using high-grade racing materials, this beautifully finished accessory is designed to fit perfectly within the lines of both cars and complement the unique tailpipes of the Evolution Line (Titanium) exhaust system. Diffuser can be used even with BMW tow bar. When mounting Akrapović rear carbon fiber diffuser BMW comfort access system will not work.	Car	Suv	BMW	X5 M (F85)	2015	2017	967.76	EUR
TP-T/P/2	Tail pipe set (Titanium)	Optional part		The tailpipes are the most visible part of the exhaust system, and that's why we dedicate particular attention to them at Akrapović. In order to satisfy the most discriminating tastes, we've created special titanium-alloy tailpipes. To make our tailpipes stand out from the rest even more, in addition to selecting the finest materials, we also made them larger.	Car	Suv	BMW	X6 M (E71)	2009	2014	1228.46	EUR
M-BMT/1H	Evolution Line (Titanium) X5 M	Evolution	EC Type Approval	This SAC from the M division of BMW is a tour de force. Add the Akrapović Evolution performance exhaust system for improved power, reduced weight, and better sound. The Evolution is a complete "catalytic converter back system" and comprises titanium link pipes with resonators, a titanium X-pipe, and a muffler with integrated valves. It dramatically reduces back pressure and enhances power delivery. The sound is transformed thanks to the dual-mode exhaust flap system, which helps deliver a deeper but civilized sound at low revs and a sportier exhaust note at higher revs, all without droning. Complete the look with a set of four exquisite 100 mm tailpipes in titanium or carbon fibre. Further tuning opportunities exist with our stainless steel high-flow down pipes. When installing Akrapović aftermarket optional down pipes with sports catalytic converters or without catalytic converters, which are developed for use on closed tracks only, remapping the ECU is mandatory. When installing Akrapović aftermarket exhaust system that was developed for use on closed tracks, we recommend remapping the ECU in order to prevent potential "check engine light" warning signals.	Car	Suv	BMW	X6 M (E71)	2009	2014	4397.33	EUR
DI-BMCA/2	Rear Carbon fiber diffuser	Optional part	ABE Type Approval	The rears of the BMW X5 M (F85) and BMW X6 M (F86) can both be further enhanced by adding the optional ABE-compliant carbon-fibre diffuser. Developed using high-grade racing materials, this beautifully finished accessory is designed to fit perfectly within the lines of both cars and complement the unique tailpipes of the Evolution Line (Titanium) exhaust system. Diffuser can be used even with BMW tow bar. When mounting Akrapović rear carbon fiber diffuser BMW comfort access system will not work.	Car	Suv	BMW	X6 M (F86)	2015	2017	967.76	EUR
P-HF947	Akrapović Sound Kit	Optional part	W/O Approval	This easy-to-use optional extra gives the driver the opportunity to switch between dual-mode settings for either a sporty sound between the deeper and higher frequencies, or the more regular Akrapović sound. It works by fully controlling the opening and closing of the exhaust valves simply by pushing a button on the Sound Remote Controller or via the downloadable app.	Car	Sports Coupe	BMW	X6 M (F86)	2015	2017	580.25	EUR
S-BMT/1	Evolution Line (Titanium) X6 M	Evolution	ECE Type Approval	Built from high-grade lightweight titanium to reduce weight, with valve housings cast in the in-house foundry, the Evolution Line (Titanium) exhaust system fits directly onto the X6's stock downpipes. Developed to deliver both power and torque gains throughout the range, it is finished with integrated hand-crafted carbon-fibre tailpipes to enrich the visual enjoyment of the exhaust, styled with a distinctive round design with titanium inner parts to enhance the rear of the BMW X6 M. The tailpipes have been perfectly crafted and designed to fit beautifully within the optional carbon-fibre diffuser. The system is a simple plug-and-play operation to fit, and has been designed to meet ECE type approval. The optional Akrapović Sound Kit is also available.	Car	Suv	BMW	X6 M (F86)	2015	2017	5671.20	EUR
S-CO/1/1	Evolution Line (Titanium)	Evolution		The Akrapović Evolution Line system takes exhaust tuning to the next level. Featuring mufflers and link-pipes made from high-grade titanium to dramatically reduce the overall weight, the system provides more power, lowers back pressure, enhances throttle response, and increases torque. With four valves, the first pair operates in four-cylinder mode and the second set comes into action following the driver's specifications. With an electronic device developed by Akrapović engineers for the five standard GM modes—Weather, Eco, Tour, Sport, and Track—the system is perfectly matched to operate with the car's drive mode selector. This produces an even greater range of options for the driver to fully experience the amazing sound of the car. The Evolution Line system, with a new X-pipe, provides even greater performance compared to the Slip-On Line system, and provides a unique race-note soundtrack for this thrilling engine, with the enhanced sound characteristics of the V8 configuration and without any drone—just pure enjoyment. Four large-diameter carbon fibre tailpipes with titanium liners complete the appearance of the Evolution Line perfectly, making it stand out as something special. If the Akrapović Evolution Line system replaces the GM NPP exhaust system, the Evolution Line maintains the valve regulation of the NPP system. If the Corvette C7 is not equipped with a GM Performance exhaust (NPP exhaust), then the Control Kit (P-HF866) and Valve Actuator Kit (P-HF868) are mandatory. For Corvette C7s with a Performance exhaust (NPP exhaust), neither the Control Kit (P-HF866) nor the Valve Actuator Kit (P-HF868) is needed.	Car	Sports Coupe	Chevrolet	Corvette Stingray (C7)	2014	2017	4934.07	EUR

MTP-CO/T1/1	Slip-On Line (Titanium)	Slip-On		The Akrapovič Slip-On Line system is the first step in exhaust tuning. Crafted from high-grade titanium, which considerably reduces the weight in comparison to the stock system, it has been perfectly designed to fit directly onto the existing link pipes. The system increases power, provides better throttle response, and improves torque, and also conjures up an amazing sound from the naturally-aspirated V8 engine. The Slip-On Line system has four valves, designed for the first pair to operate in four-cylinder mode and the second set to come into action according to the driver's specifications. The system is developed to be compatible with the car's drive mode selector, and Akrapovič engineers have developed an electronic device to drive the exhaust valves for each mode—Weather, Eco, Tour, Sport, and Track—giving the driver an even greater opportunity to enjoy the sound of the Akrapovič Slip-On Line across the whole spectrum of the car's performance. It's topped off by four large-diameter carbon fibre tailpipes with titanium inners, to make the Slip-On clearly recognizable as an exhaust that means business. If the Akrapovič Slip-On system replaces the GM NPP exhaust system, the Slip-On Line maintains the valve regulation of the NPP system. If the Corvette C7 is not equipped with a GM Performance exhaust (NPP exhaust), then the Control Kit (P-HF886) and Valve Actuator Kit (P-HF868) are mandatory. For Corvette C7s with a Performance exhaust (NPP exhaust), neither the Control Kit (P-HF886) nor the Valve Actuator Kit (P-HF868) is needed.	Car	Sports Coupe	Chevrolet	Corvette Stingray (C7)	2014	2017	3980.00	EUR
P-HF868	Valve Actuator Kit	Optional part	W/O Approval	The Valve Actuator Kit is only mandatory for Corvette C7s without a Performance exhaust (NPP exhaust). Corvette C7s equipped with a GM Performance exhaust (NPP exhaust) do not need the Valve Actuator Kit (P-HF868). It consists of two genuine GM electrical actuators, which operate the NPP valves in the tailpipes.	Car	Sports Coupe	Chevrolet	Corvette Stingray (C7)	2014	2017	840.00	EUR
P-HF886	Control Kit	Optional part	W/O Approval	The Control Kit gives the driver the option to control the Akrapovič rear exhaust valves through the Corvette C7 drive mode selector. Once a simple installation process is completed, the electronic platform will automatically drive the exhaust's rear valves based on the engine speed, gear, and selected drive mode. The Control Kit is only mandatory for Corvette C7s without the Performance exhaust (NPP exhaust). Corvette C7s equipped with a GM Performance exhaust (NPP exhaust) do not need the Control Kit (P-HF886).	Car	Sports Coupe	Chevrolet	Corvette Stingray (C7)	2014	2017	459.00	EUR
MTP-CO/T1/2	Slip-On Line (Titanium)	Slip-On		The Akrapovič Slip-On Line system is the first step in exhaust tuning. Crafted from high-grade titanium, which considerably reduces the weight in comparison to the stock system, it has been perfectly designed to fit directly onto the existing link pipes. The system increases power, provides better throttle response, and improves torque, and also conjures up an amazing sound from the naturally-aspirated V8 engine. The Slip-On Line system has two valves. The system maintains the valve regulation of the NPP (Performance exhaust) system and is developed to be compatible with the car's drive mode selector, and Akrapovič engineers have developed an electronic device to drive the exhaust valves for each mode—Weather, Eco, Tour, Sport, and Track—giving the driver an even greater opportunity to enjoy the sound of the Akrapovič Slip-On Line across the whole spectrum of the car's performance. It's topped off by four large-diameter carbon fibre tailpipes with titanium inners, to make the Slip-On clearly recognizable as an exhaust that means business.	Car	Sports Coupe	Chevrolet	Corvette Z06 (C7)	2014	2017	3902.64	EUR
S-CO/T1/2	Evolution Line (Titanium)	Evolution		The Akrapovič Evolution Line system takes exhaust tuning to the next level. Featuring mufflers and link-pipes made from high-grade titanium to dramatically reduce the overall weight, the system provides more power, lowers back pressure, enhances throttle response, and increases torque. The Slip-On Line system has two valves. The system maintains the valve regulation of the NPP (Performance exhaust) system. With an electronic device developed by Akrapovič engineers for the five standard GM modes—Weather, Eco, Tour, Sport, and Track—the system is perfectly matched to operate with the car's drive mode selector. This produces an even greater range of options for the driver to fully experience the amazing sound of the car. The Evolution Line system, with a new X-pipe, provides even greater performance compared to the Slip-On Line system, and provides a pure race-note soundtrack for this stunning engine, with the enhanced sound characteristics of the V8 configuration and without any drone—just pure enjoyment. Four large-diameter carbon fibre tailpipes with titanium inners complete the appearance of the Evolution Line perfectly, making it stand out as something special.	Car	Sports Coupe	Chevrolet	Corvette Z06 (C7)	2014	2017	4893.45	EUR
TP-C7/1	Tail pipe set (Carbon, dia 115 mm)	Optional part		The tailpipes are the most visible part of the exhaust system, and that's why we dedicate particular attention to them at Akrapovič. In order to satisfy the most discriminating tastes, we've created handcrafted carbon fibre tailpipes.	Car	Sports Coupe	Chevrolet	Corvette Z06/ZR1 (C6)	2006	2011	1239.93	EUR
TP-NR35C	Tail pipe set (Carbon, dia 125 mm) Corvette	Optional part		The tailpipes are the most visible part of the exhaust system, and that's why we dedicate particular attention to them at Akrapovič. In order to satisfy the most discriminating tastes, we've created handcrafted carbon fibre tailpipes. To make our tailpipes stand out from the rest even more, in addition to selecting the finest materials, we also made them larger.	Car	Super Sport	Chevrolet	Corvette Z06/ZR1 (C6)	2006	2011	1216.53	EUR
P-HF879	Akrapovič Sound Kit	Optional part	W/O Approval	The optional Akrapovič Sound Kit enables owners of selected Akrapovič car exhausts to control the sound of the system from the cockpit of their machine. Using Akrapovič technology, drivers can easily switch between the quiet mode and a sportier sound. With the use of a receiver to drive the actuators that open or close the valves at the end of the exhaust system, drivers can use the Sound Remote Controller or the new smartphone app (for iOS and Android) to regulate the valves.	Car	Sports Coupe	Chevrolet	Corvette Z06/ZR1 (C6)	2006	2013	349.37	EUR
MTP-FE458H	Slip-On Line (Titanium)	Slip-On	EC Type Approval	The Ferrari 458 Italia is one of the most impressive road-going cars ever designed. With its lightweight construction, technical innovations, and 570 hp 4.5-liter engine, it's a memorable driving experience. Add our titanium Slip-On performance exhaust system for even more power, reduced weight, and an enhanced sporty sound. Our Slip-On features dual-mode exhaust valves and a triple exit system that delivers crisp but subdued sound at low rpm, but at higher rpm it fully unleashes an incredible deep sporty sound from the F1-inspired, high-revving V8. Complete the look with a set of three exquisite carbon fibre tailpipes. Further tuning opportunities and even more aggressive sound are available with our titanium link pipe set with high-flow catalytic converters. When installing Akrapovič aftermarket optional down pipes with sports catalytic converters or without catalytic converters, which are developed for use on closed tracks only, remapping the ECU is mandatory. When installing Akrapovič aftermarket exhaust system that was developed for use on closed tracks, we recommend remapping the ECU in order to prevent potential "check engine light" warning signals.	Car	Super Sport	Ferrari	458 Italia/458 Spider	2010	2015	8022.76	EUR
P-DEL2	Delete-R	Optional part	W/O Approval	The Akrapovič Delete-R has been developed for use of Akrapovič performance exhaust system in combination with standard ECU settings and will eliminate possible engine check error codes caused by the improved emission flow.	Car	Super Sport	Ferrari	458 Italia/458 Spider	2010	2015	471.17	EUR
L-FE/T/1	Link pipe set (Titanium)	Optional part		We offer optional, lightweight, high-flow 200 cpsi catalyst link pipes. Used in conjunction with the muffler system the sound is even more aggressive, similar to the 458 Challenge Car. When installing Akrapovič aftermarket optional down pipes with sports catalytic converters or without catalytic converters, which are developed for use on closed tracks only, remapping the ECU is mandatory. When installing Akrapovič aftermarket exhaust system that was developed for use on closed tracks, we recommend remapping the ECU in order to prevent potential "check engine light" warning signals. THIS PRODUCT DOES NOT MEET EMISSION COMPLIANCE REQUIREMENTS FOR STREET OR HIGHWAY USE.	Car	Super Sport	Ferrari	458 Italia/458 Spider	2010	2015	3161.84	EUR
L-FE/SS/2	Link Pipe Set w/o Cat (SS)	Optional part		Designed to offer the ultimate in sound performance and sportiness. The sound is close to that of the 458 Italia and delivers a tone similar to a normally aspirated V8 engine from a turbo power plant. It is constructed with larger-diameter straight tubes, designed to reduce backpressure to a minimum and ensure that the highest engine tuning potential for optimal power increase is achieved. When fitting the optional link pipe set without catalytic converters, remapping the car's ECU is necessary. THIS PRODUCT DOES NOT MEET EMISSION COMPLIANCE REQUIREMENTS FOR STREET OR HIGHWAY USE.	Car	Super Sport	Ferrari	488 GTB/488 Spider	2016	2017	1948.20	EUR
MTP-FE488H	Slip-On Line (Titanium)	Slip-On	ECE Type Approval	Constructed using high-grade, ultra-lightweight special titanium alloys – with parts cast in Akrapovič's in-house foundry – providing a weight reduction of 35.2% over the stock exhaust. Larger-diameter tubes assist airflow and a different system configuration lowers backpressure to increase performance and power outputs. It is ECE type-approved and comes with easy-to-install instructions. It is finished with a carbon-fibre outer sleeve on the tailpipes. Especially when combining the Slip-On system with the optional stainless-steel link pipe sets with or without catalytic converters, it emphasizes the character of the Ferrari V8 (flat-crank engine) sound with the unique Akrapovič note. When installing Akrapovič optional link pipe set with or without catalytic converters, remapping the ECU is mandatory.	Car	Super Sport	Ferrari	488 GTB/488 Spider	2016	2017	5650.95	EUR

L-FE/SS/1	Link Pipe Set w Cat (SS)	Optional part		Featuring 200 CPSI high-flow high-quality metal cats and larger insulated tubes, the set increases performance due to less restricted flow through the cats and lowered backpressure, resulting in increased power. Sound levels will also be enhanced, with an increase of 10 dB in external sound performance, emphasizing the character of the engine to provide more of the traditional V8 flat crank feel. When fitting the optional link pipe set with catalytic converters, remapping the car's ECU is necessary. THIS PRODUCT DOES NOT MEET EMISSION COMPLIANCE REQUIREMENTS FOR STREET OR HIGHWAY USE.	Car	Super Sport	Ferrari	488 GTB/488 Spider	2016	2017	3539.40	EUR
MTP-LA/T/1	Slip-On Line (Titanium-Inconel)	Slip-On		At its launch, the Lamborghini Aventador represented a whole new level of performance, and its prestige can be further enhanced with the addition of an Akrapovič Slip-On exhaust system. This perfectly precision-crafted titanium system increases the power of the Aventador even further, while providing a huge 46% weight savings over the stock exhaust. Constructed using hi-grade titanium, castings from Akrapovič's in-house foundry, and Inconel straight tubes, the Slip-On is designed to fit perfectly with the optional Inconel Akrapovič link pipes or the stock system. Akrapovič's sound engineers have worked intensely to give the system a scintillating V12 racing sound that's an enjoyable and comfortable aural experience inside the car, and produces a head-turning "wow factor" for passersby. The Slip-On for the Aventador is the first exhaust system to incorporate the newly developed state-of-the-art Akrapovič Sound Kit to control the exhaust valves, giving the driver a dual-mode option for choosing a deep sporty sound or the more regular Akrapovič sound. This is achieved by just the push of a button on the Sound Remote Controller or via the downloadable app, allowing the driver to fully appreciate the unique sound of the Akrapovič exhaust system. The superbly finished carbon-fibre and titanium tailpipes, and the meticulous attention to detail on the entire system, guarantee that the Akrapovič Slip-On synchronizes perfectly with the beautifully proportioned rear end of the Aventador. THIS PRODUCT DOES NOT MEET EMISSION COMPLIANCE REQUIREMENTS FOR STREET OR HIGHWAY USE.	Car	Super Sport	Lamborghini	Aventador LP 700-4 Coupé/Roadster	2011	2017	10908.00	EUR
L-LA/T/1	Link pipe set (Inconel)	Optional part		This set of high-quality, lightweight link pipes is offered as an option for the Lamborghini Aventador to further enhance the performance of the stunning car. Manufactured from Inconel, the link pipes are designed to utilize the Akrapovič Slip-On system. When installed with the Slip-On system, these pipes will increase power, reduce the weight by over 50% from the stock setup, and add even more V12-Grand Prix Racing sound enjoyment. Designed with insulating material to prevent heat transfer from the exhaust area, the addition of catless link pipes will require remapping the ECU. When installing Akrapovič aftermarket optical link pipes with sports catalytic converters or without catalytic converters, which are developed for use on closed tracks only, remapping the ECU is mandatory. THIS PRODUCT DOES NOT MEET EMISSION COMPLIANCE REQUIREMENTS FOR STREET OR HIGHWAY USE.	Car	Super Sport	Lamborghini	Aventador LP 700-4 Coupé/Roadster	2011	2017	3641.40	EUR
P-HF880	Akrapovič Sound Kit	Optional part	W/O Approval	The optional Akrapovič Sound Kit enables owners of selected Akrapovič car exhausts to control the sound of the system from the cockpit of their machine. Using Akrapovič technology, drivers can easily switch between the quiet mode and a sportier sound. With the use of a receiver to drive the actuators that open or close the valves at the end of the exhaust system, drivers can use the Sound Remote Controller or the new smartphone app (for iOS and Android) to regulate the valves.	Car	Super Sport	Lamborghini	Gallardo LP 550-2 Coupé	2009	2014	451.78	EUR
M-LA/T/4	Slip-On Line (Titanium 550/560)	Slip-On		The precision-engineered titanium alloy Slip-On performance exhaust system reduces the weight of this supercar and improves handling. We've extracted additional power through improved gas-flow dynamics and a drop in back pressure. To complement our muffler design, we've added our well-known cast titanium dual-mode exhaust valves to create a virtual symphony from the large displacement V10. If no optional Akrapovič sound kit for adjustable sound is used, at lower engine speeds and during cruise operation the valves are closed and produce a deeper and sharper exhaust note. At wide-open throttle the valves open, releasing the full fury of the engine. The driver can control the sound with the Akrapovič sound kit. Complete the look with a set of four exquisite tailpipes in carbon fibre. When installing Akrapovič aftermarket exhaust system that was developed for use on closed tracks, we recommend remapping the ECU in order to prevent potential "check engine light" warning signals. THIS PRODUCT DOES NOT MEET EMISSION COMPLIANCE REQUIREMENTS FOR STREET OR HIGHWAY USE.	Car	Super Sport	Lamborghini	Gallardo LP 550-2 Coupé	2009	2014	5438.35	EUR
TP-CT/7	Tail pipe set (Carbon 550/560)	Optional part		The tail pipes are the most visible part of the exhaust system, and that's why we dedicate particular attention to them at Akrapovič. In order to satisfy the most discriminating tastes, we've created handcrafted carbon-fibre tail pipes.	Car	Super Sport	Lamborghini	Gallardo LP 550-2 Coupé	2009	2014	1105.94	EUR
TP-CT/7	Tail pipe set (Carbon 550/560)	Optional part		The tail pipes are the most visible part of the exhaust system, and that's why we dedicate particular attention to them at Akrapovič. In order to satisfy the most discriminating tastes, we've created handcrafted carbon-fibre tail pipes.	Car	Super Sport	Lamborghini	Gallardo LP 560-4 Coupé/Spyder	2008	2014	1105.94	EUR
M-LA/T/4	Slip-On Line (Titanium 550/560)	Slip-On		The precision-engineered titanium alloy Slip-On performance exhaust system reduces the weight of this supercar and improves handling. We've extracted additional power through improved gas-flow dynamics and a drop in back pressure. To complement our muffler design, we've added our well-known cast titanium dual-mode exhaust valves to create a virtual symphony from the large displacement V10. If no optional Akrapovič sound kit for adjustable sound is used, at lower engine speeds and during cruise operation the valves are closed and produce a deeper and sharper exhaust note. At wide-open throttle the valves open, releasing the full fury of the engine. The driver can control the sound with the Akrapovič sound kit. Using Akrapovič technology, drivers can easily switch between the quiet mode and a sportier sound. With the use of a receiver to drive the actuators that open or close the valves at the end of the exhaust system, drivers can use the Sound Remote Controller or the new smartphone app (for iOS and Android) to regulate the valves.	Car	Super Sport	Lamborghini	Gallardo LP 570-4 Coupé/Spyder	2010	2014	451.78	EUR
M-LA/T/4	Slip-On Line (Titanium 570-4)	Slip-On		The precision-engineered titanium alloy Slip-On performance exhaust system reduces the weight of this supercar and improves handling. We've extracted additional power through improved gas-flow dynamics and a drop in back pressure. To complement our muffler design, we've added our well-known cast titanium dual-mode exhaust valves to create a virtual symphony from the large displacement V10. If no optional Akrapovič sound kit for adjustable sound is used, at lower engine speeds and during cruise operation the valves are closed and produce a deeper and sharper exhaust note. At wide-open throttle the valves open, releasing the full fury of the engine. The driver can control the sound with the Akrapovič sound kit. Complete the look with a set of four exquisite tailpipes in carbon fibre. When installing Akrapovič aftermarket exhaust system that was developed for use on closed tracks, we recommend remapping the ECU in order to prevent potential "check engine light" warning signals. THIS PRODUCT DOES NOT MEET EMISSION COMPLIANCE REQUIREMENTS FOR STREET OR HIGHWAY USE.	Car	Super Sport	Lamborghini	Gallardo LP 570-4 Coupé/Spyder	2010	2014	5438.35	EUR
TP-CT/8	Tail pipe set (Carbon 570)	Optional part		The tailpipes are the most visible part of the exhaust system, and that's why we dedicate particular attention to them at Akrapovič. In order to satisfy the most discriminating tastes, we've created handcrafted carbon-fibre tailpipes.	Car	Super Sport	Lamborghini	Gallardo LP 570-4 Coupé/Spyder	2010	2014	1105.94	EUR

MTP-LA/T1/2	Slip-On Line (Titanium)	Slip-On		<p>Following the success and experience gained from the Slip-On Line exhaust system that Akrapovič developed for the Lamborghini Gallardo, the new system for the Lamborghini Huracán takes this stunning car to new levels. Precision engineered from a high-grade titanium alloy, which is designed to significantly reduce weight and improve handling, the Slip-On Line has bigger main pipes than the standard system and a specially designed X-part (for cross-flow) in the muffler to reduce back pressure, increasing power and torque levels right across the rev range. The unique growl from the naturally aspirated V10 engine is improved as the performance grows, delivering a distinctive note that thrills the senses, without any unwanted cabin noise. At lower revs and during cruise operation the valves are closed, producing a deeper and sharper exhaust note, but when the revs rise and the valves open, the full passionate soundtrack of the engine is released to show that the Huracán means business. This exquisite system is perfectly finished with four carbon fibre tailpipes, ensuring that this exhaust looks as good as it sounds and performs. THIS PRODUCT DOES NOT MEET EMISSION COMPLIANCE REQUIREMENTS FOR STREET OR HIGHWAY USE.</p>	Car	Super Sport	Lamborghini	Huracán LP 580-2 Coupe/Spyder	2016	2016	8322.40	EUR

S-MC/T1/1	Slip-On Line (Titanium)	Slip-On		<p>The performance exhaust for the McLaren MP4-12C is a high-tech system crafted from a special durable and heat-resistant titanium alloy with bigger tubes and unique solutions to improve torque and power at all rpms, especially in the most-used middle range. Our uncompromising approach uses the best materials and design. Light systems save weight and lower the center of gravity, leading to better handling as well. A special coating guarantees a state-of-the-art look. The 12C with the Akrapovič Slip-On exhaust system sounds deeper in the low rpms and serves up a delicious racing sound as the revs get higher. Slip-On systems contain special sound solutions to tune the sound frequencies: every element of the system was designed for maximum sound output, and offers everything needed for pleasant cabin comfort and to make the V8 sing out for true car enthusiasts at all rpms in all gears. On top of all this, the carbon fibre tailpipes create the striking visual impression that this is no ordinary McLaren.</p>	Car	Super Sport	McLaren	12C / 12C SPIDER	2012	2014	6480.65	EUR
S-MC/T1/3	Slip-On Line (Titanium)	Slip-On		<p>An exquisite car deserves an exquisite exhaust, and the Slip-On Line (Titanium) for the McLaren is certainly that. It is made of special, lightweight, durable, and heat-resistant titanium alloys, all perfectly formed and shaped to fit the car. Bigger tubes deliver optimised gas flow, and the use of ultra-lightweight materials will significantly reduce the vehicle's weight and enhance its handling. A distinctive coating offers an enhanced appearance, and the parts most exposed to heat feature special insulation for protection. With two flawlessly styled and finished handmade carbon-fibre tailpipes, which beautifully complement the titanium pipes, this exhaust is a work of art. It comes complete with a soundtrack that perfectly matches the car's performance, ideally tuned to produce a unique sound colour and the celebrated Akrapovič signature sound.</p>	Car	Super Sport	McLaren	540C	2016	2017	5467.20	EUR

S-MEW204AMG	Evolution Line (Titanium)	Evolution		<p>Stepping up to our Evolution performance exhaust system, there are further gains to be had in terms of power delivery and weight reduction for the C 63 AMG. The sound is also deeper and more aggressive. The Evolution exhaust system is notably louder than the Slip-On, but it's still perfectly suitable for day-to-day driving. The Evolution system is precision-made of our proprietary titanium; we include the mufflers from the Slip-On system and then add a lightweight link pipe assembly that incorporates integrated resonators. The mounting points are the same and the system fits perfectly. Complete the look with a set of four unique tailpipes in titanium. The bezels for these tailpipes are cast at our foundry from an exclusive blend of titanium, as are the collectors for the mufflers. THIS PRODUCT DOES NOT MEET EMISSION COMPLIANCE REQUIREMENTS FOR STREET OR HIGHWAY USE.</p>	Car	Sport Sedan	Mercedes-AMG	C 63 Coupé (C204)	2011	2014	5438.35	EUR
MTP-ME/T/3H	Evolution Line (Titanium)	Evolution	ECE Type Approval	<p>Perfectly formed using specially developed ultra-lightweight titanium alloys and finished with hand-crafted matte carbon-fibre tailpipes. The system replaces both the base and performance exhausts fitted to the Mercedes-AMG C 63 and C 63 S. This stunning system includes parts cast in the company's in-house foundry, featuring an active X connection and an additional pair of exhaust valves behind the rear mufflers, designed to provide optimal control of the exhaust sound for the best aural enjoyment. With two defined sound characteristics and three different driving sound settings, the system has been perfectly tuned to deliver the very best sound in all modes. The optional Akrapovič Sound Kit controller allows the user to choose the exhaust tone regardless of the chosen mode of the vehicle and is a recommended upgrade when replacing the base exhaust system. An increase in performance and torque and a huge weight savings in excess of 45% makes this a very serious performance upgrade. Because it is ECE type approved with no need to re-map the ECU or add any other parts, it is just a simple plug-and-play installation. The exquisite Akrapovič Evolution Line (Titanium) exhaust system adds performance and style, along with an amazing soundtrack. Because of packaging requirements, the EVO system has been split into two codes. Please be aware that both part numbers (MTP-ME/T/3H and E-ME/T/3) must be ordered. If the Akrapovič Evolution Line system replaces the Mercedes-AMG performance exhaust system, the Valve Actuator Kit (P-HF985) is not needed. The valves on the exhaust can be controlled from the car cabin. The Akrapovič Sound Kit (P-HF949) can be purchased as an optional part. If the car is not equipped with a performance exhaust but with the basic Mercedes-AMG exhaust system, then the Valve Actuator Kit (P-HF985) is mandatory. The Akrapovič Sound Kit (P-HF949) is also highly recommended for complete control over exhaust sound regulation. If the car is already equipped with exhaust valve button inside the cabin, sound kit is not needed.</p>	Car	Sports Coupe	Mercedes-AMG	C 63 Coupé (C205)	2016	2017	4416.60	EUR

E-ME/T/3	Evolution Link Pipe Set (Titanium)	Evolution	ECE Type Approval	Because of packaging requirements, the EVO system has been split into two codes. Please be aware that both part numbers (MTP-ME/T/2H1 or MTP-ME/T/3H and E-ME/T/3) must be ordered. If the Akrapović Evolution Line system replaces the Mercedes-AMG performance exhaust system, the Valve Actuator Kit (P-HF985) is not needed. The valves on the exhaust can be controlled from the car cabin. The Akrapović Sound Kit (P-HF949) can be purchased as an optional part. If the car is not equipped with a performance exhaust but with the basic Mercedes-AMG exhaust system, then the Valve Actuator Kit (P-HF985) is mandatory. The Akrapović Sound Kit (P-HF949) is also highly recommended for complete control over exhaust sound regulation.	Car	Sports Coupe	Mercedes-AMG	C 63 Coupé (C205)	2016	2017	1693.20	EUR
P-HF949	Akrapović Sound Kit	Optional part	W/O Approval	The Akrapović Sound Kit allows the driver to easily adjust the sound of the exhaust from inside the car's cockpit. Using the latest innovative technology and working with the car's own electronics, the Akrapović Sound Kit provides different sound characteristics through the control of the active X-connection built into this superb Evolution Line (Titanium) system. For a car equipped with the base Mercedes-AMG exhaust system – with no exhaust system button inside the cabin – the Akrapović Sound Kit (P-HF949) is a highly recommended upgrade to take complete control over the exhaust sounds. If the car is already equipped with exhaust valve button inside the cabin, sound kit is not needed.	Car	Super Sport	Mercedes-AMG	C 63 Coupé (C205)	2016	2017	390.82	EUR

P-HF841/2	Akrapović Sound Kit	Optional part		The optional Akrapović Sound Kit enables owners of selected Akrapović car exhausts to control the sound of the system from the cockpit of their machine. Using Akrapović technology, drivers can easily switch between the quiet mode and a sportier sound. With the use of a receiver (already included in evolution system) to drive the actuators that open or close the valves at the end of the exhaust system, drivers can use the Sound Remote Controller or the new smartphone app (for iOS and Android) to regulate the valves. With the use of optional Akrapović Sound Kit, the ECE homologation is not valid anymore.	Car	Hot Hatch	Mercedes-AMG	G 63 (W463)	2015	2017	121.46	EUR
S-ME/T/2H	Evolution Line (Titanium)	Evolution	ECE Type Approval	The Evolution Line (Titanium) exhaust system for the Mercedes-AMG G 63 is Akrapović's first venture into the high-performance off-road market. It is constructed with high-grade durable lightweight titanium to reduce weight, which is then sandblasted and coated for increased durability. This system is beautifully finished with specially-designed tailpipes exiting on either side of the vehicle, perfectly routed to fit within limited space. It delivers a unique sound for a sporty edge, specially programmed by the Akrapović Sound Engineers, with a pair of exhaust valves behind the rear mufflers to provide optimal control of the exhaust tones while increasing power and torque levels. This system is ECE type approved. An optional Akrapović Sound Kit is available to control the different sound settings. Optional downpipes are also offered to provide full exhaust-tuning capabilities.	Car	Suv	Mercedes-AMG	G 63 (W463)	2015	2017	7690.00	EUR
DP-ME/SS/1	Downpipe Set w Cat (SS)	Optional part		This optional upgrade turns the Evolution Line into a complete system. It is constructed from high-quality durable stainless steel. High-flow downpipes increase power and produce an improved Akrapović sound as the rev rise. Fitted with high-flow catalytic converters (300 cps). The ECU will need to be remapped when this downpipe set is fitted. THIS PRODUCT DOES NOT MEET EMISSION COMPLIANCE REQUIREMENTS FOR STREET OR HIGHWAY USE.	Car	Suv	Mercedes-AMG	G 63 (W463)	2015	2017	3800.00	EUR
DP-ME/SS/2	Downpipe Set w/o Cat (SS)	Optional part		For an enhanced exhaust-tuning process, adding this sporty stainless-steel downpipe set without catalytic converters takes the Evolution Line to greater levels. It is designed to provide the best sound optimization and increase performance due to the high-flow downpipes offering less restricted airflow. The ECU will need to be remapped when this downpipe set is fitted. On product page the downpipes are shown together with the evolution system. THIS PRODUCT DOES NOT MEET EMISSION COMPLIANCE REQUIREMENTS FOR STREET OR HIGHWAY USE.	Car	Suv	Mercedes-AMG	G 63 (W463)	2015	2017	1590.00	EUR
S-ME/T/1H	Evolution Line (Titanium)	Evolution	ECE Type Approval	The Evolution Line (Titanium) takes these cars to heightened levels of auditory excitement, enhanced performance, and stunning good looks, all with a perfectly sculpted exhaust made from ultra-lightweight titanium alloys that reduce the weight from the stock exhaust by over 45%. Finished with hand-crafted carbon-fibre tailpipes, this exhaust has a stunning soundtrack and that unique Akrapović signature. The sound is controlled by a complex X-connection, cast in the in-house titanium foundry, with a precisely machined valve flap to alter the tones, which can be controlled with a console button inside the cabin or by the Sound Remote Controller of the optional Akrapović Sound Kit. When the X-connection valve is open, the exhaust system delivers a more continuous, smooth, and harmonic sound for a more comfortable ride, and in closed mode the acoustics have been maximised to give the cars a pure sporty and intense muscle-car V8 roar. Power and torque levels are increased throughout the entire rev range. It is ECE approved, so no re-map or other parts are needed and it is a simple plug-and-play installation. Fitting information for GT/ GT Roadster models: the Evolution system only fits cars equipped with the AMG Performance exhaust.	Car	Sports Coupe	Mercedes-AMG	GT (C190) / GT Roadster (R190) / GT S (C120) / GT C Roadster (R120)	2015	2017	7990.00	EUR
P-HF1044	Akrapović Sound Kit	Optional part	W/O Approval	The Akrapović Sound Kit allows the driver to easily adjust the sound of the exhaust from inside the car's cockpit. Using the latest innovative technology and working with the car's own electronics, the Akrapović Sound Kit provides different sound characteristics through the control of the active X-connection built into this superb Evolution Line (Titanium) system. If the car is already equipped with exhaust valve button inside the cabin, sound kit is not needed.	Car	Super Sport	Mercedes-AMG	GT (C190) / GT Roadster (R190) / GT S (C120) / GT C Roadster (R120)	2015	2017	350.82	EUR
MTP-ME/T/1H	Evolution Line (Titanium)	Evolution	ECE Type Approval	The ultra-light Evolution Line exhaust system for the S 63 AMG Coupé/Cabriolet is made entirely from the highest quality titanium and includes parts cast in the company's in-house foundry. This revolutionary new system features an active X-connection for the first time, which is perfectly formed to allow exhaust gases to mix from both sides of the engine. The system has been created with durability in mind as well as performance using special titanium alloys – which are 45% lighter than steel and 47% lighter than the stock system. The Evolution Line features a unique sound profile that sets off the engine's cylinder firing sequence to its full potential. Through the use of the car's own electronics and the Akrapović Sound Kit, different sound characteristics are available through the control of the active X-connection – which features a guided and precisely machined valve flap to alter the tones. With the valve flap open the sound is fuller, more continuous, and resonant, but in the closed position the system produces a pure, strong roar reminiscent of a muscle car. With an impressive increase in the power and torque curves across the entire rev range, this system also improves the performance of the V8 biturbo engine. It features for the first time a special technique of seamless integration between the titanium and carbon-fibre composites to create a continuous finish for the system's tailpipes and show the system off to its full extent. Please be aware that both part numbers - MTP-ME/T/1H and E-ME/T/2 have to be ordered! The system is splitted in 2 codes only because of packaging issues. S-MESLSAMG/1	Evolution Line (Titanium)	Evolution		Akrapović has crafted a high-performance titanium Evolution exhaust system to further enhance this legendary performance car with a massive 6.3-liter V8. Made of our proprietary titanium alloy, the Evolution exhaust system is a "cat back" system. There are significant weight savings that aid handling and the power improvement is delivered across the rev range. The performance exhaust system further enhances the driving experience with the famed unmistakable deep resonant sound of Akrapović, which is controlled with Akrapović sound kit. For exhaust valve control. When the valves are open, this powerful machine roars like a typical V8 muscle car. Complete the look with a pair of stunning handcrafted carbon fibre tailpipes with a special titanium alloy core.	Car	Super Sport	Mercedes-AMG	SLS Coupé/Roadster (C197/R197)	2010	2014	11467.13	EUR
TP-MNR56/57-CA	Tail pipe set (Carbon)	Optional part		The tailpipes are the most visible part of the exhaust system, and that's why we dedicate particular attention to them at Akrapović. In order to satisfy the most discriminating tastes, we've created handcrafted carbon fibre tailpipes. To make our tailpipes stand out from the rest even more, in addition to selecting the finest materials, we also made them larger.	Car	Hot Hatch	MINI	Cooper S (R56) / Cooper S Cabrio (R57)	2007	2014	479.25	EUR
TP-MNR56/57-T	Tail pipe set (Titanium)	Optional part		The tailpipes are the most visible part of the exhaust system, and that's why we dedicate particular attention to them at Akrapović. In order to satisfy the most discriminating tastes, we've created special titanium-alloy tailpipes. ME-MINTV1H	Evolution Line (SS) Cooper S	Evolution	EC Type Approval	The team behind the MINI is widely acknowledged as having done a great job bringing this iconic car up to date. The Evolution exhaust system made of high-quality stainless steel adds even more to the performance and fun to be had. This system consists of an optimized link pipe with a resonator and rear muffler. It improves performance, adds power and torque, and improves the responsiveness of the four-cylinder engine, especially in the rpm mid-range. The performance exhaust system has a sporty and aggressive tone, without any unwanted droning, that's in keeping with the character of the car it's designed for. Complete the look with a set of two exquisite 95 mm tailpipes in titanium or carbon fibre. Optional down pipe with sports catalytic converter for even greater power. EC type-approval is valid for engine type N18B16A and N14B16A.	Car	Hot Hatch	MINI	Cooper S (R56) / Cooper S Cabrio (R57)	2007	2014	992.12	EUR

TP-NI234-C	Tail pipe set (Carbon)	Optional part		The tailpipes are the most visible part of the exhaust system, and that's why we dedicate particular attention to them at Akrapović. In order to satisfy the most discriminating tastes, we've created handcrafted carbon-fiber tailpipes. To make our tailpipes stand out from the rest even more, in addition to selecting the finest materials, we also made them larger.	Car	Sports Coupe	Nissan	370Z	2009	2017	613.70	EUR
ME-NI/SS/1	Evolution Line (SS)	Evolution		The Evolution system for the 370Z uses the same muffler as the Slip-On system. However, it also includes highflow link pipes with integrated resonators and a crossover tube that replace the entire exhaust system from the catalytic converters back. Made of high-grade stainless steel, this system is race-inspired with a more aggressive character, louder but still perfectly acceptable for daily use with no droning to ruin the driving experience. There are power gains across the entire rpm range, especially in the middle and high section. If you're looking for most powerful Akrapović performance exhaust for the 370Z, the Evolution is the solution. Complete the look with a set of two exquisite 125 mm tailpipes in sandblasted and coated titanium or carbon fibre. Exhaust can also be mounted on NISMO model.	Car	Sports Coupe	Nissan	370Z	2009	2017	1837.34	EUR
M-NI234H	Slip-On Line (SS)	Slip-On	EC Type Approval	The 370Z from Nissan is a fine sports car in the tradition of Japanese muscle cars but benefits greatly from the Akrapović treatment. Our finely crafted Slip-On side back exhaust system is made of high-grade stainless steel and fits the original mounting points perfectly. Installation is a snap. There are power gains not just at or near redline, but across the entire rpm range. The Slip-On sport exhaust produces a boost in performance, as well as a weight reduction when compared to stock. The Slip-On system generates a deeper-than-stock tone with the sporty sound you'd expect from the 3.7-liter high-revving engine. Complete the look with a set of two exquisite 125 mm tailpipes in sandblasted and coated titanium or carbon fibre. Exhaust can also be mounted on NISMO model.	Car	Sports Coupe	Nissan	370Z	2009	2017	985.60	EUR
M-NI/1/H	Slip-On Line (Titanium)	Slip-On	EC Type Approval	The Nissan GT-R is one of the fastest cars to race on Germany's famous Nürburgring Nordschleife (North Loop). To enhance this already impressive performance, we offer our Akrapović Slip-On exhaust system made completely of our proprietary titanium. This beautifully crafted sport exhaust achieves weight reduction and delivers power improvement, most noticeably at the top of the rpm range. The sound is also improved, with a deeper, sportier sound delivered without droning, and this perfectly complements the car. The attention to detail can be seen in every component. Even the exhaust tailpipes were designed to resemble the trademark GT-R tail lights. Complete the look with a set of four exquisite tailpipes in titanium or carbon fibre. When replacing the stock exhaust that includes valves, then the ECU remapping is mandatory!	Car	Super Sport	Nissan	GT-R	2008	2017	2831.87	EUR
ME-NI/T/1	Evolution Line (Titanium)	Evolution		The Evolution performance exhaust, made of our proprietary titanium, is an even better match for the GT-R, complementing its race-inspired look. Substantial work by the R&D team was required to achieve impressive horsepower and torque output increase over stock, with gains being realized at the redline and throughout the entire rpm range. There are substantial reductions in weight achieved through careful design and the use of light titanium. The power-to-weight ratio improves on both fronts: power increase and weight reduction. The GT-R deserves a great sound and the Akrapović Evolution system delivers it: deep, loud, and aggressive but without droning. Complete the look with a set of four exquisite tailpipes in titanium or carbon fibre. THIS PRODUCT DOES NOT MEET EMISSION COMPLIANCE REQUIREMENTS FOR STREET OR HIGHWAY USE. When replacing the stock exhaust that includes valves, then the ECU remapping is mandatory!	Car	Super Sport	Nissan	GT-R	2008	2017	4711.43	EUR
TP-NI/R35C	Tail pipe set (Carbon, dia 125 mm) GT-R	Optional part		The tailpipes are the most visible part of the exhaust system, and that's why we dedicate particular attention to them at Akrapović. In order to satisfy the most discriminating tastes, we've created handcrafted carbon-fiber tailpipes.	Car	Super Sport	Nissan	GT-R	2008	2017	1216.53	EUR
S-PO/TI/5H	Slip-On Line (Titanium) - for OE non sport exhaust	Slip-On	ECE Type Approval	Built from high-grade, heat-resistant, ultra-lightweight titanium alloys – which are sandblasted and coated for durability – the Slip-On Line is the first step in exhaust modification. Delivering weight savings in excess of 35% over stock, while increasing performance, the exhaust uses the latest innovative technologies in its construction, including parts cast in Akrapović's in-house foundry. It is perfectly tuned to give a unique sound to the turbocharged power engine and is finished with two beautiful tailpipes to add to the aesthetic pleasure. Fitment notice: The system is designed to replace the Porsche non sport standard exhaust system without valves and has to be installed together with Akrapović Link Pipe Set w/ Cat, Rear Carbon fiber diffuser, Akrapović Sound Kit and certain Porsche original parts that are specified in installation manual (page 85). In case the vehicle is equipped with non sport system with valves, then the Sound Kit is not needed. Please read the instructions carefully before the start of the installation.	Car	Super Sport	Porsche	911 Carrera /S/4/S/GTS (991.2)	2016	2017	4676.81	EUR
P-HF1065	Akrapović Sound Kit	Optional part		The optional Akrapović Sound Kit enables owners of selected Akrapović car exhausts to control the sound of the system from the cockpit of their machine. Using Akrapović technology, drivers can easily switch between the quiet mode and a sportier sound. With the use of a receiver to drive the actuators that open or close the valves at the end of the exhaust system, drivers can use the Sound Remote Controller or the new smartphone app (for iOS and Android) to regulate the valves. Fitment notice: Akrapović Sound Kit is mandatory part needed for mounting the Akrapović exhaust system (slip-on, link pipe set and diffuser) to Porsche Carrera 991.2 models, equipped with non sport standard systems without valves. In case the vehicle is equipped with non sport system with valves, then the Sound Kit is not needed. Please read the instructions carefully before the start of the installation.	Car	Super Sport	Porsche	911 Carrera /S/4/S/GTS (991.2)	2016	2017	690.50	EUR
L-PO/SS/1H	Link Pipe Set w/ Cat (SS)	Optional part		Constructed from high-quality stainless steel, this optional addition to the Slip-On Line will enhance the sound of the exhaust, and power will be taken to greater heights. Fitted with sporty catalytic converters, installing this option increases the engine's performance and adds an aural improvement for all to appreciate. Providing improved flow for the exhaust gases, the link pipes take the 911 to greater heights. THIS PRODUCT DOES NOT MEET EMISSION COMPLIANCE REQUIREMENTS FOR STREET OR HIGHWAY USE.	Car	Super Sport	Porsche	911 Carrera /S/4/S/GTS (991.2)	2016	2017	2920.00	EUR
DI-PO/CA/3G	Rear Carbon fiber diffuser - High Gloss	Optional part	ABE Type Approval	The diffuser is perfectly styled to add a stunning visual touch to the rear of the Porsche 911. Made from hand-crafted, high-grade carbon fibre, the rear diffuser is available in either a matte or high-gloss finish to complement the twin centrally located tailpipes.	Car	Super Sport	Porsche	911 Carrera /S/4/S/GTS (991.2)	2016	2017	1290.00	EUR
S-PO/TI/5H	Slip-On Line (Titanium) - for OE sport exhaust	Slip-On	ECE Type Approval	Built from high-grade, heat-resistant, ultra-lightweight titanium alloys – which are sandblasted and coated for durability – the Slip-On Line is the first step in exhaust modification. P-HF870	Akrapović Sound Kit	Optional part	W/O Approval	The optional Akrapović Sound Kit enables owners of selected Akrapović car exhausts to control the sound of the system from the cockpit of their machine. Using Akrapović technology, drivers can easily switch between the quiet mode and a sportier sound. With the use of a receiver to drive the actuators that open or close the valves at the end of the exhaust system, drivers can use the Sound Remote Controller or the new smartphone app (for iOS and Android) to regulate the valves.	Car	Super Sport	Porsche	911 Carrera /S/4/4S/GTS (997 DF)	2008	2012	590.31	EUR
S-PO997CA-RT	Slip-On Race Line (Titanium)	Slip-On		The Slip-On Race system provides even greater power and unburdens weight from the rear, offering better handling. The Slip-On Race system, made of our proprietary titanium, includes side mufflers, a link pipe set with integrated exhaust valves, an X-pipe, and four exquisite tailpipes. Add a Slip-On Race system for even greater power and sound delivery, and the reduction in weight behind the rear axle markedly improves handling. The 911 with the Slip-On Race system is noticeably more powerful, especially in the middle rev range. The performance exhaust system boasts an optional Akrapović sound kit for exhaust valve control, which offers a choice between a sportier loud sound and regular performance, suitable for everyday driving. When installing Akrapović aftermarket optional down pipes with sports catalytic converters or without catalytic converters, which are developed for use on closed tracks only, remapping the ECU is mandatory. When installing Akrapović aftermarket exhaust system that was developed for use on closed tracks, we recommend remapping the ECU in order to prevent potential "check engine light" warning signals. Shown performance data are measured on a car with manual transmission.	Car	Super Sport	Porsche	911 Carrera /S/4/4S/GTS (997 DF)	2008	2012	6191.94	EUR

In case the vehicle is equipped with non sport system with valves, then the Sound Kit is not needed. Please read the instructions carefully before the start of the installation.	Car	Super Sport	Porsche	911 Carrera Cabriolet /S/4/4S/GTS (991.2)	2016	2017	690.50	EUR
S-PO/T/5H	Slip-On Line (Titanium) - for OE non sport exhaust	Slip-On	ECE Type Approval	Built from high-grade, heat-resistant, ultra-lightweight titanium alloys – which are sandblasted and coated for durability – the Slip-On Line is the first step in exhaust modification. Delivering weight savings in excess of 35% over stock, while increasing performance, the exhaust uses the latest innovative technologies in its construction, including parts cast in Akrapović's in-house foundry. It is perfectly tuned to give a unique sound to the turbocharged boxer engine and is finished with two beautiful tailpipes to add to the aesthetic pleasure. Fitment notice: The system is designed to replace the Porsche non sport standard exhaust system without valves and has to be installed together with Akrapović Link Pipe Set w Cat, Rear Carbon fiber diffuser, Akrapović Sound Kit and certain Porsche original parts that are specified in installation manual (page 85). In case the vehicle is equipped with non sport system with valves, then the Sound Kit is not needed. Please read the instructions carefully before the start of the installation.	Car	Super Sport	Porsche	911 Carrera Cabriolet /S/4/4S/GTS (991.2)	2016	2017	4676.81	EUR
P-HF870	Akrapović Sound Kit	Optional part	W/O Approval	The optional Akrapović Sound Kit enables owners of selected Akrapović car exhausts to control the sound of the system from the cockpit of their machine. Using Akrapović technology, drivers can easily switch between the quiet mode and a sportier sound. With the use of a receiver to drive the actuators that open or close the valves at the end of the exhaust system, drivers can use the Sound Remote Controller or the new smartphone app (for iOS and Android) to regulate the valves.	Car	Super Sport	Porsche	911 Carrera Cabriolet /S/4/4S/GTS (997 DF)	2008	2012	590.31	EUR
S-PO997CA-RT	Slip-On Race Line (Titanium)	Slip-On		The Slip-On Race system provides even greater power and unburdens weight from the rear, offering better handling. The Slip-On Race system, made of our proprietary titanium, includes side mufflers, a link pipe set with integrated exhaust valves, an X-pipe, and four exquisite tailpipes. Add a Slip-On Race system for even greater power and sound delivery, and the reduction in weight behind the rear axle markedly improves handling. The 911 with the Slip-On Race system is noticeably more powerful, especially in the middle rev range. The performance exhaust system boasts an optional Akrapović sound kit for exhaust valve control, which offers a choice between a sportier loud sound and regular performance, suitable for everyday driving. When installing Akrapović aftermarket optional down pipes with sports catalytic converters or without catalytic converters, which are developed for use on closed tracks only, remapping the ECU is mandatory. When installing Akrapović aftermarket exhaust system that was developed for use on closed tracks, we recommend remapping the ECU in order to prevent potential "check engine light" warning signals. Shown performance data are measured on a car with manual transmission.	Car	Super Sport	Porsche	911 Carrera Cabriolet /S/4/4S/GTS (997 DF)	2008	2012	6191.94	EUR
DI-PO/CA/1	Rear Carbon fiber diffuser	Optional part	ABE Type Approval	Designed to make the GT3 stand out from the crowd even more, the visual delight of Akrapović exhaust systems can be further enhanced with the addition of an optional carbon fibre rear diffuser. It's beautifully handcrafted from the finest materials and is designed to enhance the exclusive look of the titanium tailpipes. The ABE type-approved diffuser is a must-have extra for any discerning owner and shows that the GT3 means business, even when it's standing still. REAR CARBON DIFFUSER DOES NOT FIT ON GT3 RS models!	Car	Super Sport	Porsche	911 GT3 (991)	2014	2017	1417.80	EUR

TP-PO991GT3/BOX	Akrapović dB reducer (Titanium)	Other		Designed and constructed exclusively for the Porsche 911 GT3 (991) and GT3 RS (991), the Akrapović dB reducer (Titanium) is aimed at driving enthusiasts who need to keep the noise of the exhaust within approved levels during track-day use. Made from high-grade lightweight titanium, the dB reducer works like an additional muffler to allow extra expansion of the exhaust gases. It is easily fitted by simply removing the Akrapović tailpipe set and then mounting the dB reducer in place. After installation, the Akrapović dB reducer (Titanium) reduces dynamic sound levels* by approximately two or three decibels** while still retaining the unique Akrapović sound and character. It is designed to fit and reduce the measured dynamic sound levels of all Akrapović systems for the Porsche 911 GT3 (991) and GT3 RS: the Slip-On Line (Titanium), Evolution Line (Titanium), Sports Cup Line (Titanium), and Evolution Race Line (Titanium). The Akrapović dB reducer (Titanium) is also totally compatible with the optional Akrapović carbon-fibre diffuser, which is available for the Porsche 911 GT3 (991). The Akrapović dB reducer (Titanium) fits also to the stock exhaust system of the 911 GT3 (991) and GT3 RS (991). *Dynamic sound levels apply to a moving vehicle and not the volume from a static vehicle. **Noise reduction value is relative (or may vary) due to various noise-measuring methods used and external conditions at different racetracks.	Car	Super Sport	Porsche	911 GT3 (991)	2014	2017	1392.30	EUR
MTP-PO991GT3H1	Slip-On Line (Titanium) 991	Slip-On	EC Type Approval	Akrapović's Slip-On Line represents the first step in the exhaust system tuning process and the muffler can easily be installed onto the Porsche GT3's original system. Built from hi-grade titanium and finished with two eye-catching double round tailpipes, this entry system makes the GT3 more powerful and lighter, and gives the car that unique Akrapović sound, while still meeting ECE specifications. Designed to make the car stand out from the crowd and increase its appeal even more, the visual delight of the Akrapović Slip-On can be further enhanced with the addition of an optional carbon-fibre rear diffuser. Beautifully handcrafted from the finest materials and designed to enrich the exclusive look of the titanium exhaust system, the diffuser is a must-have extra for any discerning owner.	Car	Super Sport	Porsche	911 GT3 (991)	2014	2017	3614.21	EUR
TP-PO991GT3H	Tail pipe set (Titanium)	Other	EC Type Approval	Finish the system with a pair of eye-catching double round tailpipes, made of high-grade titanium.	Car	Super Sport	Porsche	911 GT3 (991)	2014	2017	1001.50	EUR
S-PO/TI/21	Evolution Line (Titanium)	Evolution		The titanium Evolution Line is a full system designed to give noticeably increased power at higher revs. With superb attention to detail, including parts cast in Akrapović's own titanium foundry, the craftsmanship and coating finish on the system is a joy to behold. With a newly developed exhaust manifold, incorporating 100 cpsi sports catalytic converters and side mufflers—all designed to increase power and torque—the Evolution Line utilizes integrated catalytic converters and the functionality of the new exhaust valves to deliver an out-and-out attack on the senses. With the valves in the open position, the Evolution Line sounds like the top-performing Evolution Race system, but also has the option of a lower sound level when the valves are closed, perfect for use in more everyday locations. Offering an increased weight savings in the area behind the engine and the rear axle, the reduction will enhance the handling and improve performance. The Evolution Line is also tuned to deliver a sportier and hard-hitting sound—in open valve mode, the more the engine is revved the better the sound gets—as well as increasing performance, all to provide an even greater sensory experience. With the addition of the handcrafted high-quality optional carbon-fibre rear diffuser, the Evolution Line will show that the GT3 means business even when it's standing still. When installing Akrapović aftermarket optional link pipes with sports catalytic converters or without catalytic converters, which are developed for use on closed tracks only, remapping the ECU is mandatory. When installing Akrapović aftermarket exhaust system that was developed for use on closed tracks, we recommend remapping the ECU in order to prevent potential "check engine light" warning signals. THIS PRODUCT DOES NOT MEET EMISSION COMPLIANCE REQUIREMENTS FOR STREET OR HIGHWAY USE.	Car	Super Sport	Porsche	911 GT3 (991)	2014	2017	10344.48	EUR
S-PO/TI/31	Evolution Race Line (Titanium)	Evolution		This system is built for the track and gives the Porsche GT3 the extra performance to match. Beautifully made from hi-grade titanium and with a coating, the Evolution Race Line is as striking to look at as it is to use. From the handcrafted titanium headers with 100 cpsi sports catalytic converters and titanium flanges—cast in Akrapović's own foundry—right through to the superbly finished round titanium tailpipes, the Evolution Race Line is pure quality. The system offers a perfect power curve right from 3,000 rpm to the very top of the power band, designed to continually increase performance as the revs rise. Along with improved torque and the maximum weight savings to enhance handling, the Evolution Race Line exhaust system will have the car performing like a true cup racer—with a deep, loud, and powerful Akrapović racing sound to match its performance. The assault on the senses from the Evolution Race Line system can be boosted even further with the addition of the perfectly handcrafted optional carbon-fibre diffuser. Made exclusively for the Porsche GT3, this beautiful add-on will make a statement both on and off the track. When installing Akrapović aftermarket optional link pipes with sports catalytic converters or without catalytic converters, which are developed for use on closed tracks only, remapping the ECU is mandatory. When installing Akrapović aftermarket exhaust system that was developed for use on closed tracks, we recommend remapping the ECU in order to prevent potential "check engine light" warning signals. THIS PRODUCT DOES NOT MEET EMISSION COMPLIANCE REQUIREMENTS FOR STREET OR HIGHWAY USE.	Car	Super Sport	Porsche	911 GT3 (991)	2014	2017	8154.69	EUR

S-PO991TSO-HT	Slip-On Line (Titanium)	Slip-On	ECE Type Approval	The Akrapovič Slip-On Line for the Porsche 911 Turbo / Turbo S is the first stage in the exhaust tuning process and gives this already outstanding car a further step in performance. Made from a high-grade titanium alloy and finished with exquisitely handcrafted carbon fibre and titanium tailpipes, the Slip-On Line reduces weight to aid with handling. Akrapovič's sound engineers have also created a deep and unique sound to make the Porsche 911 Turbo / Turbo S stand out even more. The Slip-On Line can also be used in conjunction with the optional Akrapovič link pipes—with or without cats—which can be added to the system to take the performance to another level. The Slip-On Line is superbly finished with a coating to give greater durability, without altering the look or performance of the system.	Car	Super Sport	Porsche	911 Turbo/Turbo S (991)	2014	2015	5142.13	EUR

L-PO991T/1	Link Pipe Set w Cat (Titanium)	Optional part		Made from titanium and designed to create a better and smoother exhaust flow, the Akrapovič Link Pipes with 100 cpsi high-flow catalysts are the next step in the tuning process and can be easily installed with the Slip-On Line system. Giving further weight savings over stock—when used in conjunction with the Slip-On—the combination of this pairing highlights the exceptional character of the Porsche boxer twin-turbo engine. The improvement in performance is further enhanced by the unique sound the Akrapovič engineers have produced. The distinctive roar from this superb engine gets noticeably louder and more complete as the revs rise, without creating an uncomfortable noise in the cockpit. To complete the quality finish, the surface of the link pipes is treated with a coating to increase durability, without changing the appearance when upgrading an Akrapovič exhaust system with the link pipes. When installing Akrapovič aftermarket optional link pipes with sports catalytic converters or without catalytic converters, which are developed for use on closed tracks only, remapping the ECU is mandatory. THIS PRODUCT DOES NOT MEET EMISSION COMPLIANCE REQUIREMENTS FOR STREET OR HIGHWAY USE.	Car	Race Cars	Porsche	911 Turbo/Turbo S (991)	2014	2015	3697,80	EUR
DI-PO/CA/2	Rear Carbon fiber diffuser	Optional part	ABE Type Approval	A Porsche Turbo / Turbo S fitted with the Akrapovič exhaust system can be further enhanced with an optional hand-crafted carbon fiber rear diffuser. Designed exclusively for the car, this stunning handcrafted diffuser takes the look of the rear of the vehicle to a whole new level and shows off the Akrapovič Slip-On line system's tailpipes to their full extent.	Car	Race Cars	Porsche	911 Turbo/Turbo S (991)	2014	2015	1418,31	EUR
L-PO991T/2	Link-Pipe Set w/o Cat (Titanium)	Optional part	W/O Approval	The next step from Akrapovič for the Porsche 911 Turbo / Turbo S is the optional titanium link pipe set without cats, perfectly finished with a coating to offer greater durability without altering the look. Designed to create the best exhaust flow and offering a huge weight saving over stock—when used in conjunction with the Slip-On—the link pipes increase power and give the car a sportier sound. Without cats are an easy-to-install performance upgrade. When installing Akrapovič aftermarket optional link pipes without catalytic converters, which are developed for use on closed tracks only, remapping the ECU is mandatory. THIS PRODUCT DOES NOT MEET EMISSION COMPLIANCE REQUIREMENTS FOR STREET OR HIGHWAY USE.	Car	Race Cars	Porsche	911 Turbo/Turbo S (991)	2014	2015	2045,40	EUR
L-PO997TFLS-100	Link pipe set (100 cpsi cats, Titanium)	Optional part		The next option is to replace the stock link pipes with the Akrapovič variant made from titanium and incorporating 100 cpsi high-flow catalysts. These link pipes, when coupled with our titanium center muffler, produce a total weight savings of 8 kg compared with the stock system. When installing Akrapovič aftermarket optional down pipes with sports catalytic converters or without catalytic converters, which are developed for use on closed tracks only, remapping the ECU is mandatory. When installing Akrapovič aftermarket exhaust system that was developed for use on closed tracks, we recommend remapping the ECU in order to prevent potential check engine light warning signals. THIS PRODUCT DOES NOT MEET EMISSION COMPLIANCE REQUIREMENTS FOR STREET OR HIGHWAY USE.	Car	Super Sport	Porsche	911 Turbo/Turbo S (997 FL)	2010	2013	3697,80	EUR
S-PO981SO-HT/1	Slip-On Line (Titanium)	Slip-On	EC Type Approval	Engineers have spent months developing a Slip-On exhaust system that takes the driving experience to a completely new level. This fully titanium exhaust system with three muffler configurations saves weight at the rear axle, additionally enhancing the handling with more power and torque gained with improved gas-flow dynamics, reduced back pressure, and a more linear power curve. Power gains are especially noticeable in the mid range. All these pluses are rounded off by a thoroughly pleasing sound note. Thanks to the dual-mode exhaust flap system, the "cat-back" Slip-On enhances the unmistakably deep resonant sound of Akrapovič. Either you leave it to the car's ECU to choose the noise level, or you select it yourself by pressing the button of the optional Akrapovič sound kit when it's time to experience the passion. If the stock system does not have integrated exhaust valves, the Akrapovič sound kit is mandatory. If the stock system has integrated exhaust valves (the Porsche sport exhaust), no Akrapovič sound kit is needed.	Car	Sports Coupe	Porsche	Boxster (981)	2012	2015	5568,02	EUR
P-PH964	Akrapovič Sound Kit	Optional part	W/O Approval	The optional Akrapovič Sound Kit enables owners of selected Akrapovič car exhausts to control the sound of the system from the cockpit of their machine. Using Akrapovič technology, drivers can easily switch between the quiet mode and a sportier sound. With the use of a receiver to drive the actuators that open or close the valves at the end of the exhaust system, drivers can use the Sound Remote Controller or the new smartphone app (for iOS and Android) to regulate the valves. If stock system has exhaust valves integrated (Porsche sport exhaust) no wireless kit is needed.	Car	Sports Coupe	Porsche	Boxster (981)	2012	2015	434,40	EUR
P-PH964	Akrapovič Sound Kit	Optional part	W/O Approval	The optional Akrapovič Sound Kit enables owners of selected Akrapovič car exhausts to control the sound of the system from the cockpit of their machine. Using Akrapovič technology, drivers can easily switch between the quiet mode and a sportier sound. With the use of a receiver to drive the actuators that open or close the valves at the end of the exhaust system, drivers can use the Sound Remote Controller or the new smartphone app (for iOS and Android) to regulate the valves. If stock system has exhaust valves integrated (Porsche sport exhaust) no wireless kit is needed.	Car	Sports Coupe	Porsche	Boxster GTS (981)	2015	2015	434,40	EUR
S-PO981SO-HT/1	Slip-On Line (Titanium)	Slip-On	EC Type Approval	Engineers have spent months developing a Slip-On exhaust system that takes the driving experience to a completely new level. This fully titanium exhaust system with three muffler configurations saves weight at the rear axle, additionally enhancing the handling with more power and torque gained with improved gas-flow dynamics, reduced back pressure, and a more linear power curve. Power gains are especially noticeable in the mid range. All these pluses are rounded off by a thoroughly pleasing sound note. Thanks to the dual-mode exhaust flap system, the "cat-back" Slip-On enhances the unmistakably deep resonant sound of Akrapovič. Either you leave it to the car's ECU to choose the noise level, or you select it yourself by pressing the button of the optional Akrapovič sound kit when it's time to experience the passion. If the stock system does not have integrated exhaust valves, the Akrapovič sound kit is mandatory. If the stock system has integrated exhaust valves (the Porsche sport exhaust), no Akrapovič sound kit is needed.	Car	Sports Coupe	Porsche	Boxster GTS (981)	2015	2015	5568,02	EUR

M-PO/T/1H	Slip-On Line (Titanium) Cayenne	Slip-On		The Porsche Cayenne broke the mould for sporty SUVs at its launch and Akrapović has developed a completely new exhaust system for the latest generation of Cayenne models. The Akrapović Slip-On system is made of our proprietary titanium. The Akrapović Slip-On titanium exhaust system can be fitted with either titanium or the highest grade carbon fibre tailpipes, wrapped around our titanium alloy. Tailpipes with a bigger diameter than stock (105 mm) provide the finishing details to this sports vehicle. Apart from making the Cayenne more attractive, fitting an Akrapović Slip-On exhaust system on this SUV also results in keeping the weight down.	Car	Suv	Porsche	Cayenne (958)	2010	2014	2505,38	EUR
L-PO/T/7	Link pipe Cayenne (Titanium)	Optional part		This fully titanium mandatory part is necessary for Cayenne models for mounting the M-PO/T/1H Slip-On exhaust system. Easy to install and a perfect fit with the stock system.	Car	Suv	Porsche	Cayenne (958)	2010	2014	608,61	EUR
TP-CT/9	Tail pipe set (Carbon)	Optional part		The tailpipes are the most visible part of the exhaust system, and that's why we dedicate particular attention to them at Akrapović. In order to satisfy the most discriminating tastes, we've created handcrafted carbon fibre tailpipes. To make our tailpipes stand out from the rest even more, in addition to selecting the finest materials, we also made them larger.	Car	Suv	Porsche	Cayenne (958)	2010	2014	1217,12	EUR
TP-CT/9	Tail pipe set (Carbon)	Optional part		The tailpipes are the most visible part of the exhaust system, and that's why we dedicate particular attention to them at Akrapović. In order to satisfy the most discriminating tastes, we've created handcrafted carbon fibre tailpipes. To make our tailpipes stand out from the rest even more, in addition to selecting the finest materials, we also made them larger.	Car	Suv	Porsche	Cayenne Diesel (958)	2010	2014	1217,12	EUR
L-PO/T/3	Link pipe Diesel (Titanium)	Optional part		This fully titanium mandatory part is necessary for Cayenne models for mounting the M-PO/T/1H Slip-On exhaust system. Easy to install and a perfect fit with the stock system.	Car	Suv	Porsche	Cayenne Diesel (958)	2010	2014	608,61	EUR
M-PO/T/1H	Slip-On Line (Titanium) Diesel	Slip-On		The Porsche Cayenne broke the mould for sporty SUVs at its launch and Akrapović has developed a completely new exhaust system for the latest generation of Cayenne models. The Akrapović Slip-On system is made of our proprietary titanium and this improves power delivery and adds a sportier sound without unwanted droning. The Akrapović Slip-On titanium exhaust system can be fitted with either titanium or the highest grade carbon fibre tailpipes, wrapped around our titanium alloy. Tailpipes with a bigger diameter than stock (105 mm) provide the finishing details to this sports vehicle. Apart from making the Diesel more attractive, fitting an Akrapović Slip-On exhaust system on this SUV also results in keeping the weight down.	Car	Suv	Porsche	Cayenne Diesel (958)	2010	2014	2505,38	EUR
MTP-PO/T/2H	Slip-On Line (Titanium)	Slip-On	EC Type Approval	The Evolution delivers more power, improves responsiveness, and keeps weight down. The uniquely designed muffler from the Slip-On with an added lightweight and exhaust flow-optimized link pipe set with bigger tubes fully represents the titanium Evolution. This performance exhaust has been created to produce a deep sound that transforms the Turbo into a real machine. This is especially the case after removing the point-welded block in the link pipe that prevents bypassing the muffler. The dual-mode system can be also used with the factory button to regulate the exhaust valves. Complete the look with a set of exquisite tailpipes in carbon fibre. Please be aware that both part numbers (MTP-PO/T/2H and E-PO/T/3) have to be ordered.	Car	Suv	Porsche	Cayenne GTS (958 FL)	2015	2017	4727,70	EUR
E-PO/T/3	Evolution Link Pipe Set (Titanium)	Evolution		The Evolution delivers more power, improves responsiveness, and keeps weight down. The uniquely designed muffler from the Slip-On with an added lightweight and exhaust flow-optimized link pipe set with bigger tubes fully represents the titanium Evolution. This performance exhaust has been created to produce a deep sound that transforms the Turbo into a real machine. This is especially the case after removing the point-welded block in the link pipe that prevents bypassing the muffler. The dual-mode system can be also used with the factory button to regulate the exhaust valves. Complete the look with a set of exquisite tailpipes in carbon fibre. If the car is equipped with performance exhaust with electronic valve actuators than actuator set P-HF1006 is required and the Akrapovic sound kit P-HF1003 can not be used. If the car is not equipped with performance exhaust and you want to use the Akrapovic sound kit than Akrapovic sound kit P-HF1003 together with Actuator set P-HF1006 has to be ordered. Optional high-flow front link pipe set without cats for more power, further tuning potential, and an aggressive racing sound are available. When installing Akrapovic aftermarket optional front link pipe set, which are developed for use on closed tracks only, remapping the ECU is mandatory. When optional Evolution Link Pipe Set (Titanium) is installed EC approval is not valid.	Car	Suv	Porsche	Cayenne GTS (958 FL)	2015	2017	1418,31	EUR
P-HF1006	Valve Actuator Kit	Optional part		If the car is equipped with performance exhaust with electric valve actuators than actuator set P-HF1006 is required and the Akrapovic sound kit P-HF1003 can not be used. The valves are opened or closed with the valve button inside the car. If the car is not equipped with performance exhaust and you want to use the Akrapovic sound kit than Akrapovic sound kit P-HF1003 with Actuator set P-HF1006 has to be ordered.	Car	Suv	Porsche	Cayenne GTS (958 FL)	2015	2017	473,30	EUR
M-PO/T/1H	Slip-On Line (Titanium) S/GTS	Slip-On		Information for the GTS: For mounting the valve system, 2 pieces of P-HF621 (valve) are additionally needed. The computer-designed Slip-On exhaust system with optimal exhaust-gas flow has been created to produce a deep, aggressive racing sound. The sound is made very aggressive by removing the point-welded block in the link pipe that prevents bypassing the muffler. The characteristic Akrapović sound of the Cayenne's engine is really powerful. In addition to making the Cayenne S more attractive, fitting an Akrapović Slip-On system on this SUV also has the advantage of keeping the weight down. The Slip-On system, made from proprietary high-strength and lightweight titanium, delivers more power, improves responsiveness, and adds more torque. Complete the look with a set of exquisite 105 mm tailpipes in titanium or carbon fibre.	Car	Suv	Porsche	Cayenne S / GTS (958)	2010	2014	2505,38	EUR
L-PO/T/4	Link pipe S Version (Titanium)	Optional part		This fully titanium mandatory part is necessary for Cayenne models for mounting the M-PO/T/1H Slip-On exhaust system. Easy to install and a perfect fit with the stock system.	Car	Suv	Porsche	Cayenne S / GTS (958)	2010	2014	608,61	EUR

DP-PO/T/1	Front link pipe set (Titanium)	Optional part		Crafted from a proprietary titanium alloy ,this catless front link pipe set, which is mounted on stock down pipes, offers a perfect upgrade of the Evolution performance exhaust system for Cayenne Turbo models. With more power (together with Evolution over 15 hp), less weight (Evolution plus the front link pipe set save around 17 kg), and sound upgrade to an aggressive racing sound, the Akrapovič front link pipe set unleashes the Cayenne's true potential.Optional high-flow front link pipe set without cats for more power, further tuning potential, and an aggressive racing sound are available. When installing Akrapovič aftermarket optional front link pipe set, which are developed for use on closed tracks only, remapping the ECU is mandatory.THIS PRODUCT DOES NOT MEET EMISSION COMPLIANCE REQUIREMENTS FOR STREET OR HIGHWAY USE.Front link pipe set (Titanium) can not be mounted on Cayenne GTS (958 FL).	Car	Suv	Porsche	Cayenne Turbo S (958)	2013	2014	886.34	EUR
P-HF62	Akrapovič Sound Kit	Optional part	W/O Approval	The optional Akrapovič Sound Kit enables owners of selected Akrapovič car exhausts to control the sound of the system from the cockpit of their machine. Using Akrapovič technology, drivers can easily switch between the quiet mode and a sportier sound. With the use of a receiver to drive the actuators that open or close the valves at the end of the exhaust system, drivers can use the Sound Remote Controller or the new smartphone app (for iOS and Android) to regulate the valves.	Car	Suv	Porsche	Cayenne Turbo S (958)	2013	2014	975.25	EUR
M-PO/T/1H	Slip-On Line (Titanium) Turbo S	Slip-On		The Slip-On system with a muffler made from proprietary high-strength and lightweight titanium delivers more power, improves responsiveness, and adds more torque. The result of the computer-designed exhaust system with optimal exhaust-gas flow is the deep sound. The sound is made louder by removing the point-welded block in the link pipe that prevents bypassing the uniquely designed muffler. Please note: when the bypass is unblocked, the EC type approval is not valid. Complete the look with a set of tailpipes in titanium or carbon fibre.If the stock system does not have integrated exhaust valves then select the optional Akrapovič sound kit for adjustable sound. If the stock system already has integrated exhaust valves, Akrapovič valves P-HF621 (quantity 2) are required.	Car	Suv	Porsche	Cayenne Turbo S (958)	2013	2014	2505.38	EUR
P-HF64	Akrapovič Sound Kit	Optional part	W/O Approval	The optional Akrapovič Sound Kit enables owners of selected Akrapovič car exhausts to control the sound of the system from the cockpit of their machine. Using Akrapovič technology, drivers can easily switch between the quiet mode and a sportier sound. With the use of a receiver to drive the actuators that open or close the valves at the end of the exhaust system, drivers can use the Sound Remote Controller or the new smartphone app (for iOS and Android) to regulate the valves. If stock system has exhaust valves integrated (Porsche sport exhaust) no wireless kit is needed.	Car	Sports Coupe	Porsche	Cayman (981)	2013	2015	434.40	EUR
S-PO981SO-HT/1	Slip-On Line (Titanium)	Slip-On	EC Type Approval	Engineers have spent months developing a Slip-On exhaust system that takes the driving experience to a completely new level. This fully titanium exhaust system with three muffler configurations saves weight at the rear axle, additionally enhancing the handling with more power and torque gained with improved gas-flow dynamics, reduced back pressure, and a more linear power curve. Power gains are especially noticeable in the mid range. All these pluses are rounded off by a thoroughly pleasing sound note. Thanks to the dual-mode exhaust slip system, the "cat-back" Slip-On enhances the unmistakably deep resonant sound of Akrapovič. Either you leave it to the car's ECU to choose the sound level, or you select it yourself by pressing the button of the optional Akrapovič sound kit when it's time to experience the passion.If the stock system does not have integrated exhaust valves, the Akrapovič sound kit is mandatory.If the stock system has integrated exhaust valves (the Porsche sport exhaust), no Akrapovič sound kit is needed.	Car	Sports Coupe	Porsche	Cayman (981)	2013	2015	5668.02	EUR

S-RECL3RS	Evolution Line (SS)	Evolution		The Akrapović Evolution system also made of high-grade stainless steel takes the performance theme even further. This performance exhaust combines the Slip-On system with an additional stainless steel link pipe with an integrated resonator. The impact on weight loss and performance versus the stock system of the Renault Clio R.S. is even more dramatic. There are real power delivery gains, and the engine, which is already primed for high-rev action, spins even more effectively, which in practical terms means that it's noticeably more responsive. The sound is deeper, sportier, and louder, akin to racing in the Clio Cup, but without droning. The look of Clio R.S. with the Evolution system is completed with distinctive precision-crafted carbon fibre tailpipes. THIS PRODUCT DOES NOT MEET EMISSION COMPLIANCE REQUIREMENTS FOR STREET OR HIGHWAY USE.	Car	Hot Hatch	Renault	Clio III RS 200	2009	2012	1216.55	EUR
S-RE/T/1	Evolution Line (Titanium)	Evolution		The Akrapović Evolution Line performance exhaust system takes the performance of the Renault Mégane R.S. to even greater heights. The lower weight of the system over stock improves the car's handling, and together with the increase in power and torque makes this impressive hot hatch an even more thrilling experience. Beautifully crafted from titanium and finished with a unique carbon fibre tailpipe, the Evolution Line system will make the Mégane R.S. stand out from the crowd. When the high-revving engine lets out that distinctive deep and sporty Akrapović sound, the whole package becomes one for all the senses to enjoy. THIS PRODUCT DOES NOT MEET EMISSION COMPLIANCE REQUIREMENTS FOR STREET OR HIGHWAY USE.	Car	Hot Hatch	Renault	Mégane Coupé RS	2010	2016	1908.90	EUR
TP-VWGMK6-CA	Tail pipe set (Carbon)	Optional part		The tailpipes are the most visible part of the exhaust system, and that's why we dedicate particular attention to them at Akrapović. In order to satisfy the most discriminating tastes, we've created handcrafted carbon fibre tailpipes. To make our tailpipes stand out from the rest even more, in addition to selecting the finest materials, we also made them larger. This gives you car an even more dynamic look, which can be either elegantly sporty, installing the tailpipes on the stock system is simple.	Car	Hot Hatch	Volkswagen	Golf (VI) GTD	2009	2012	556.70	EUR
L-VWGMK6O	Link pipe (SS)	Optional part		If you mount the Slip-On exhaust system with the stainless steel link pipe, you will save 6.5 kilograms in total.	Car	Hot Hatch	Volkswagen	Golf (VI) GTD	2009	2012	150.59	EUR
M-VW/SS/1H	Slip-On Line (SS) GTD	Slip-On	EC Type Approval	The Golf GTD is considered an icon in the world of VW enthusiasts. Akrapović has developed a new exhaust system for this diesel GTI. Apart from making the GTD more attractive, the advantages of fitting an Akrapović Slip-On system on this Golf also include keeping the weight down and unleashing a bit more power. Power gains and weight losses are noticeable with the stainless steel link pipe installed. With the Akrapović exhaust system there's also a change in the sound achieved. The Slip-On system with 100 mm tailpipes crafted from either precious titanium or attractive carbon fibre is the ideal choice for enhancing the sixth-generation Golf's beauty. With an Akrapović system your GTD will definitely stand out. Please note that the GTI diffuser is mandatory for mounting.	Car	Hot Hatch	Volkswagen	Golf (VI) GTD	2009	2012	882.34	EUR
P-R45	Fitting kit	Optional part	W/O Approval	Mandatory needed for GTD models to mount Slip-On exhaust M-VW/SS/1H.	Car	Hot Hatch	Volkswagen	Golf (VI) GTD	2009	2012	68.14	EUR
L-VW/SS/2	Link pipe set (fits on stock exhaust, SS)	Optional part		With the link pipe set you can mount Akrapović carbon fibre or titanium tailpipes on your stock exhaust system.	Car	Hot Hatch	Volkswagen	Golf (VI) GTI	2009	2012	109.00	EUR
DP/L-VW/SS/1	Downpipe / Link pipe (SS)	Optional part		For ultimate tuning potential and additional weight reduction, we offer a stainless-steel down pipe/link pipe with a high performance catalytic converter. This package gives your sound a full racing upgrade. With increased cabin noise, this package is made for drivers who refuse to make any compromises. "Extreme" is the word here. This high-flow downpipe requires ECU reprogramming. THIS PRODUCT DOES NOT MEET EMISSION COMPLIANCE REQUIREMENTS FOR STREET OR HIGHWAY USE.	Car	Hot Hatch	Volkswagen	Golf (VI) GTI	2009	2012	1591.20	EUR

L-VWGMK6O	Link pipe (SS)	Optional part		If you mount the Slip-On exhaust system with the stainless steel link pipe, you will save 6.5 kilograms in total.	Car	Hot Hatch	Volkswagen	Golf (VI) GTI	2009	2012	150.59	EUR
M-VW/SS/1H	Slip-On Line (SS) GTI	Slip-On	EC Type Approval	The Golf GTI is considered an icon in the automotive world. The GTI is also popular with tuners looking for GTI accessories to improve its power and look. The Slip-On exhaust system made of high quality stainless steel, with two mufflers developed especially for the GTI, improves power delivery, reduces weight, and enhances the sound from this classic hot hatch. The system noticeably improves responsiveness and particularly improves power in the rev range most often used. The sound is much deeper and sportier, especially with the optional link pipe. Complete the look with a set of exquisite 100 mm tailpipes in titanium or carbon fibre.	Car	Hot Hatch	Volkswagen	Golf (VI) GTI	2009	2012	882.34	EUR

With a Slip-On system, the TSI sounds a bit deeper, the noise level is within the range of the stock system, and it contains no undesirable droning. The Akrapović aftermarket Slip-On exhaust system with 100 mm tailpipes crafted from either precious titanium or attractive carbon fibre is the ideal choice for enhancing the beauty of the sixth-generation Golf. Please note that the GTI bumper is mandatory for mounting.	Car	Hot Hatch	Volkswagen	Golf (VI) TSI 1.4 (90KW)	2008	2012	882.34	EUR
TP-VWGMK6-CA	Tail pipe set (Carbon)	Optional part		The tailpipes are the most visible part of the exhaust system, and that's why we dedicate particular attention to them at Akrapović. In order to satisfy the most discriminating tastes, we've created handcrafted carbon fibre tailpipes. To make our tailpipes stand out from the rest even more, in addition to selecting the finest materials, we also made them larger. This gives you car an even more dynamic look, which can be either elegantly sporty. Installing the tailpipes on the stock system is simple. L-VWGMK6O	Link pipe (SS)	Optional part		If you mount the Slip-On exhaust system with the stainless steel link pipe, you will save 6.5 kilograms in total.	Car	Hot Hatch	Volkswagen	Golf (VI) TSI 1.8	2009	2009	150.59	EUR
M-VW/SS/1H	Slip-On Line (SS) TSI 1.8 (Link pipe mandatory)	Slip-On		One of the must-have parts when looking for design, power, less weight, and a racing sound is this Akrapović package. The Slip-On is the ideal choice for enhancing the Golf's beauty. In this process, sound plays at least as important a role as appearance and performance. The Slip-On exhaust system makes this engine play a truly sporty symphony and, with a full racing upgrade including link and down pipes, the sound reaches racing levels. With increased cabin noise, this package is made for drivers who refuse to make any compromises. 'Extreme' is the word here. Complete the look with a set of exquisite 100 mm tailpipes in titanium or carbon fibre. Please note that the GTI bumper is mandatory for mounting.	Car	Hot Hatch	Volkswagen	Golf (VI) TSI 1.8	2009	2009	882.34	EUR
M-VW/SS/1H	Slip-On Line (SS) TSI 1.8 (Downpipe mandatory)	Slip-On		One of the must-have parts when looking for design, power, less weight, and a racing sound is this Akrapović package. The Slip-On is the ideal choice for enhancing the Golf's beauty. In this process, sound plays at least as important a role as appearance and performance. The Slip-On performance exhaust makes this engine play a truly sporty symphony and, with a full racing upgrade including link and down pipes, the sound reaches racing levels. With increased cabin noise, this package is made for drivers who refuse to make any compromises. 'Extreme' is the word here. Complete the look with a set of exquisite 100 mm tailpipes in titanium or carbon fibre. The high-flow link and down pipes deliver further power and sound improvements. Please note that the GTI bumper is mandatory for mounting. When installing Akrapović aftermarket down pipes with sports catalytic converters or without catalytic converters, which are developed for use on closed tracks only, remapping the ECU is mandatory. DP-L-VW/SS/1	Downpipe / Link pipe (SS)	Optional part		For ultimate tuning potential and additional weight reduction, we offer a stainless-steel down pipe/link pipe with a high performance catalytic converter. This package gives your sound a full racing upgrade. With increased cabin noise, this package is made for drivers who refuse to make any compromises. 'Extreme' is the word here. This high-flow downpipe requires ECU reprogramming. THIS PRODUCT DOES NOT MEET EMISSION COMPLIANCE REQUIREMENTS FOR STREET OR HIGHWAY USE.	Car	Hot Hatch	Volkswagen	Golf (VI) TSI 1.8	2009	2009	1591.20	EUR
MTP-VW/7/1H	Slip-On Line (Titanium)	Slip-On	ECE Type Approval	Akrapović revolutionizes the hot hatch segment with full-titanium Slip-On exhaust systems for the VW Golf GTI. Sustainable, light, and performance-oriented proprietary titanium alloys, a feature of Akrapović performance exhaust systems for supercars and winners of 24-hour races, offer exclusivity to owners of the new GTI. Akrapović's unique lightweight Slip-On Line exhaust system for the Golf GTI delivers a premium touch through that deep sporty Akrapović sound, performance, and exclusive design, emphasized by two exquisite carbon fibre tailpipes. Race-proven materials. The perfectly crafted system provides additional performance gains over the stock system. The Slip-On's optimized exhaust flow gives the GTI a great platform for further tuning.	Car	Hot Hatch	Volkswagen	Golf (VII) GTI	2013	2016	1621.80	EUR
S-VW/T/1	Evolution Line (Titanium)	Evolution		The Evolution systems for the GTI retain all the exclusivity of the titanium Slip-On exhaust systems, including stunning carbon fibre tailpipes, and display further potential through additional link and down pipes made from high-grade stainless steel for even greater strength and enhanced temperature and corrosion resistance. With its sports catalytic converter, bigger tubes, and optimized gas flow and back pressure, Evolution unleashes additional power and improves the torque and responsiveness of the GTI's four-cylinder engine. Akrapović's state-of-the-art technology and innovative solutions provide an exciting exhaust system for the latest Golf GTI with even more tuning potential. Engineers have counted countless hours fine-tuning the sound too, to give you that deep sporty Akrapović sound throughout all revs. When installing Akrapović aftermarket optional down pipes with sports catalytic converters or without catalytic converters, which are developed for use on closed tracks only, remapping the ECU is mandatory. When installing Akrapović aftermarket exhaust system that was developed for use on closed tracks, we recommend remapping the ECU in order to prevent potential check engine light/warning signals. THIS PRODUCT DOES NOT MEET EMISSION COMPLIANCE REQUIREMENTS FOR STREET OR HIGHWAY USE.	Car	Hot Hatch	Volkswagen	Golf (VII) GTI	2013	2016	3243.60	EUR
DI-VW/CA/1	Rear Carbon fiber diffuser	Optional part	ABE Type Approval	Complete the look of the Akrapović Evolution and Slip-On line exhaust systems with an optional carbon fibre rear diffuser. Handcrafted by Akrapović from finest carbon fibre, to emphasize the exclusivity of the titanium exhaust system on the GTI.	Car	Hot Hatch	Volkswagen	Golf (VII) GTI	2013	2016	890.00	EUR

MTP-VW/T/2	Slip-On Race Line (Titanium)	Slip-On		Akrapović revolutionizes the hot hatch segment with full-titanium Slip-On Race exhaust systems for the VW Golf GTI. Sustainable, light, and performance-oriented proprietary titanium alloys, a feature of Akrapović performance exhaust systems for supercars and winners of 24-hour races, offer exclusivity to owners of the new GTI. Akrapović's unique lightweight Slip-On Race Line exhaust system for the Golf GTI delivers a premium touch through that deep sporty Akrapović sound, performance, and exclusive design, emphasized by two exquisite carbon fibre tailpipes. Race-proven materials. The perfectly crafted system provides additional performance gains over the stock system. The Slip-On Race's optimized exhaust flow gives the GTI a great platform for further tuning. Slip-On Race exhaust system was developed for the manual GTI, but can also be used with the DSG version. It's meant for drivers that enjoy sports driving on race tracks.	Car	Hot Hatch	Volkswagen	Golf (VII) GTI	2013	2016	1621.80	EUR
S-VW/T/2	Evolution Race Line (Titanium)	Evolution		The Evolution Race systems for the GTI retain all the exclusivity of the titanium Slip-On Race exhaust systems, including stunning carbon fibre tailpipes, and display further potential through additional link and down pipes made from high-grade stainless steel for even greater strength and enhanced temperature and corrosion resistance. With its sports catalytic converter, bigger tubes, and optimized gas flow and back pressure, Evolution Race unleashes additional power and improves the torque and responsiveness of the GTI's four-cylinder engine. Akrapović's state-of-the-art technology and innovative solutions provide an exciting exhaust system for the latest Golf GTI with even more tuning potential. Engineers have spent countless hours fine-tuning the sound too, eliminating the unwanted drone effect, to give you that deep sporty Akrapović sound through all revs. This Evolution Race exhaust system is the top-of-the-top in the Akrapović range of performance exhaust systems for the Golf GTI. It was developed for the manual GTI, but can also be used with the DSG version. It's meant especially for performance enthusiasts that like to test their GTIs on the race track. When installing Akrapović aftermarket optional down pipes with sports catalytic converters or without catalytic converters, which are developed for use on closed tracks only, remapping the ECU is mandatory. When installing Akrapović aftermarket exhaust system that was developed for use on closed tracks, we recommend remapping the ECU in order to prevent potential "check engine light" warning signals.
